

Specification Sheet

FR 30 / FR 30 ME

Floor and Hard Surface Cleaning made easy.

The FR 30 / FR 30 ME has been designed for the cleaning of floors and walls within the professional sector. They can be used with a variety of HD / HDS Pressure Washers - (Please note a nozzle kit is required, see reverse for further details).

- Robust plastic housing or stainless steel options available.
- Cleans surfaces up to 10 times quicker than a standard High Pressure Jet.
- Cleans wall and floors indoors and outdoors, without splashing water.
- Wall cleaning made easy by directly attaching the high pressure gun to adaptor and integrated handle.
- Rotating nozzle beam for outstanding cleaning performance.
- Heavy duty ceramic bearings for extended life-time.

* Please note gun and lance not included.
