The garden listens to your smartphone.

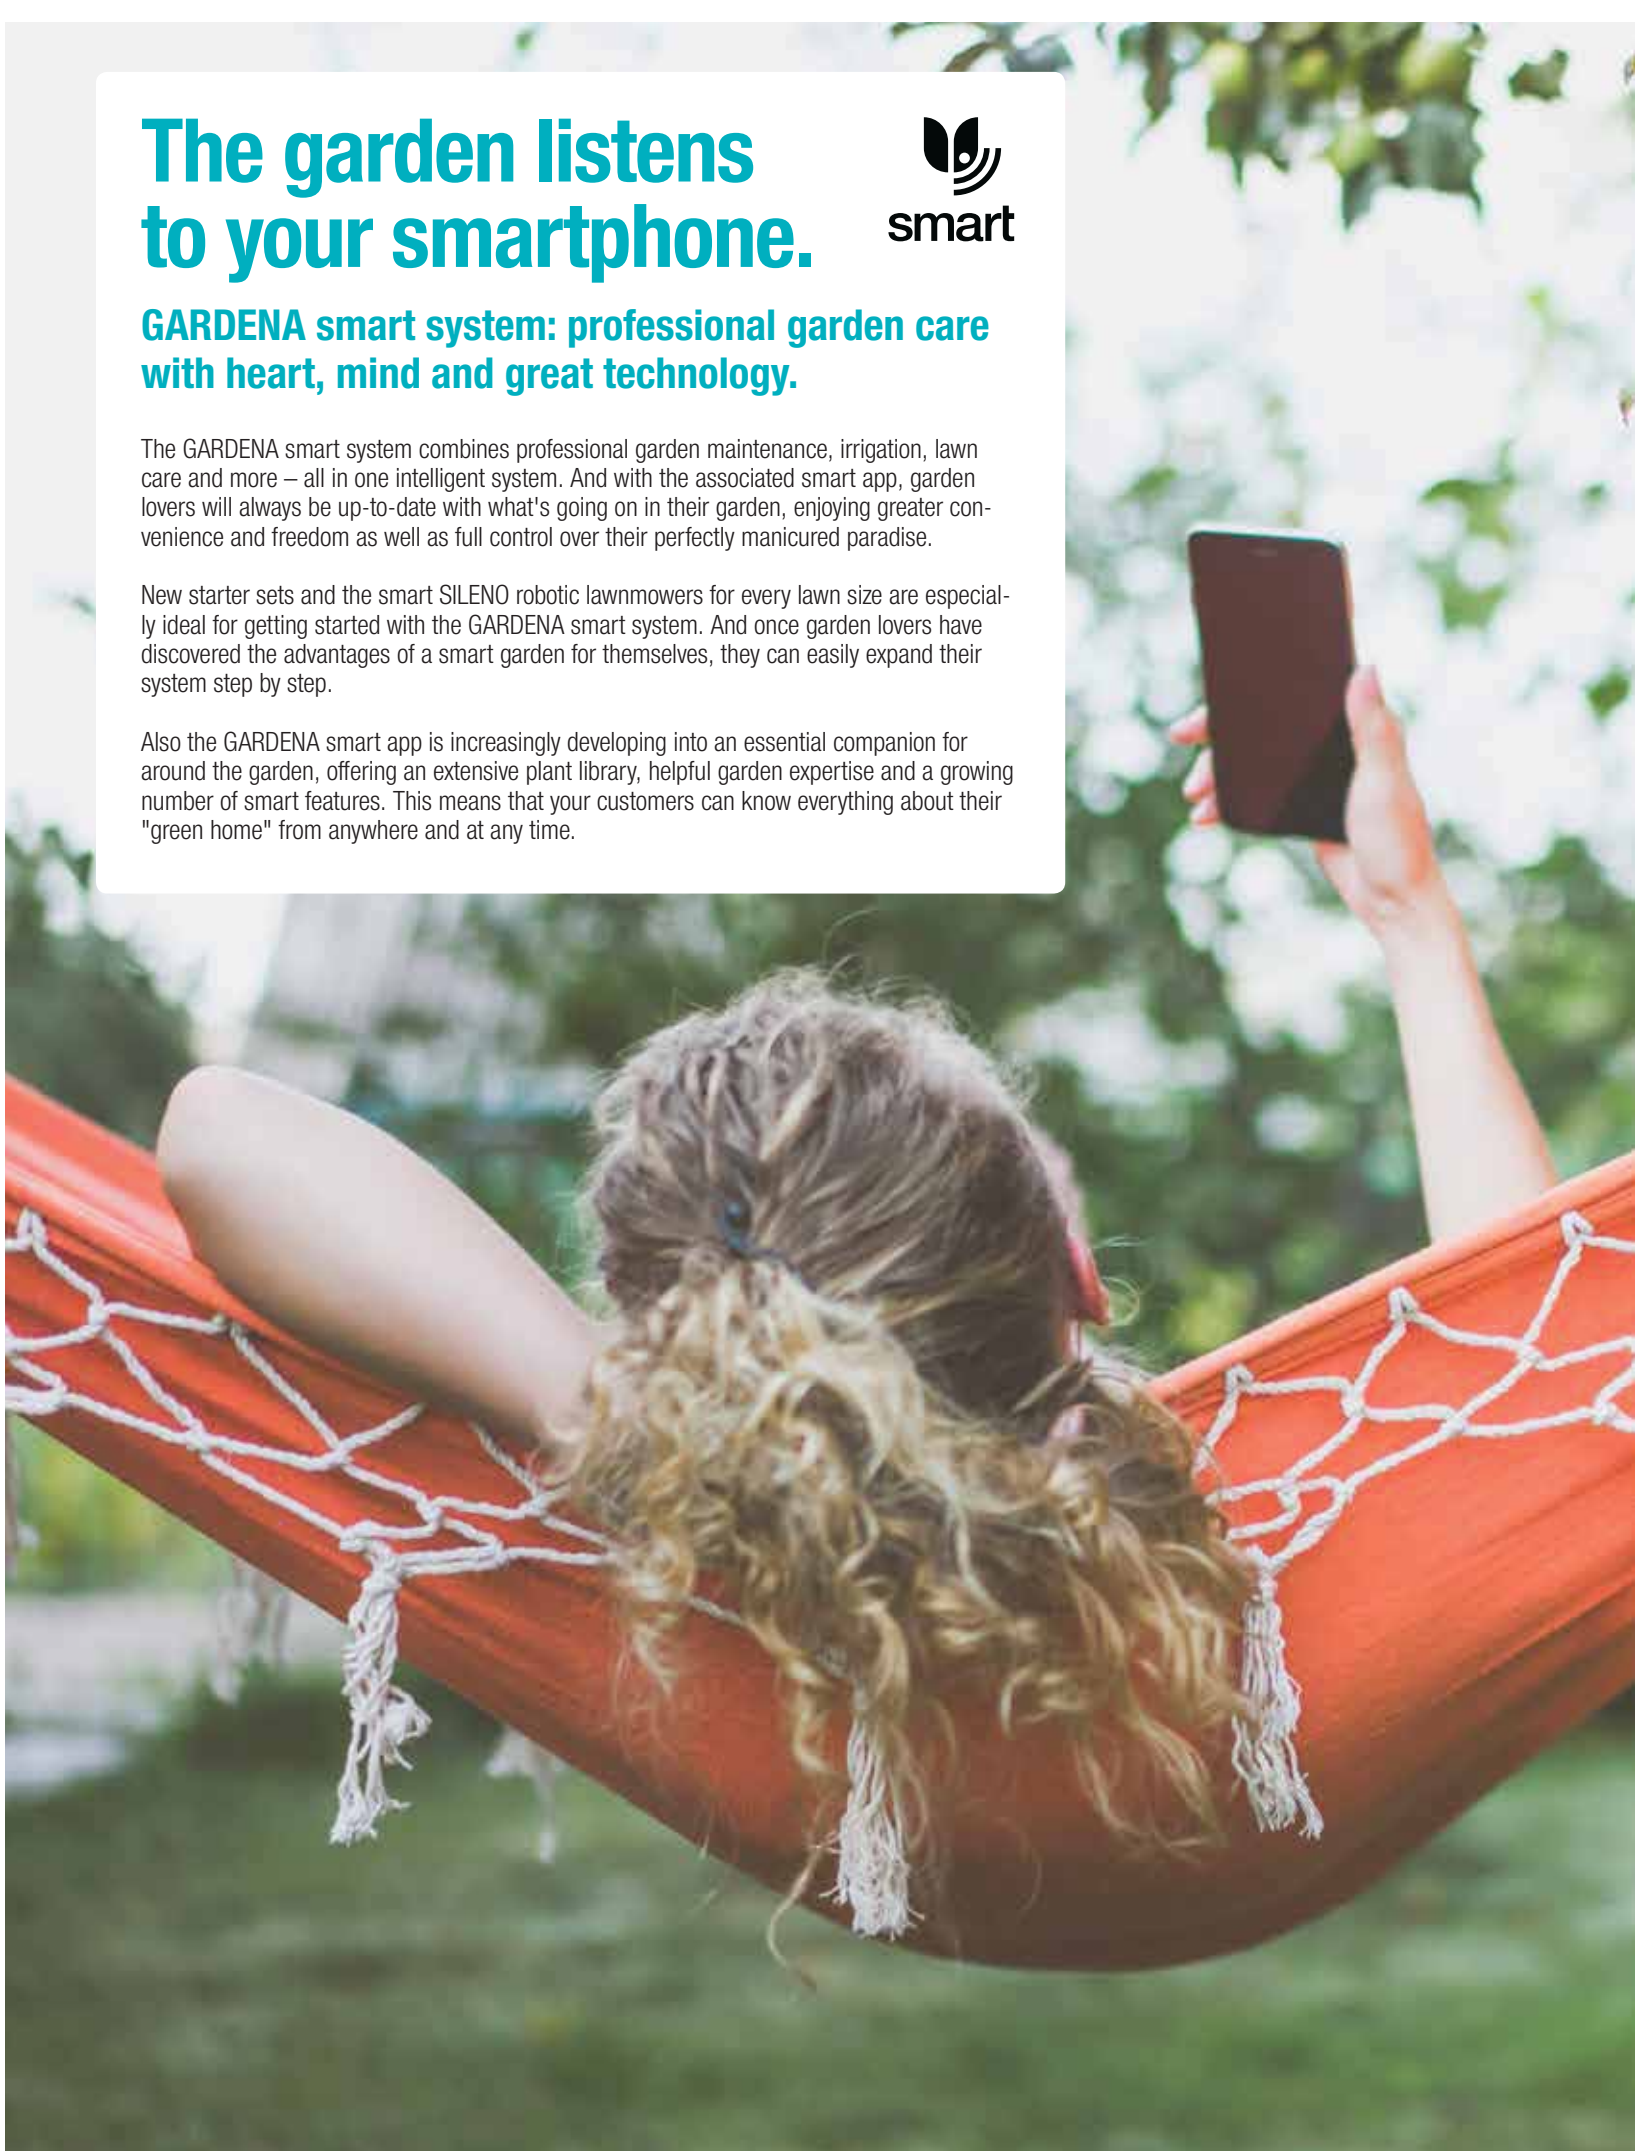

GARDENA smart system: professional garden care with heart, mind and great technology.

The GARDENA smart system combines professional garden maintenance, irrigation, lawn care and more – all in one intelligent system. And with the associated smart app, garden lovers will always be up-to-date with what's going on in their garden, enjoying greater convenience and freedom as well as full control over their perfectly manicured paradise.

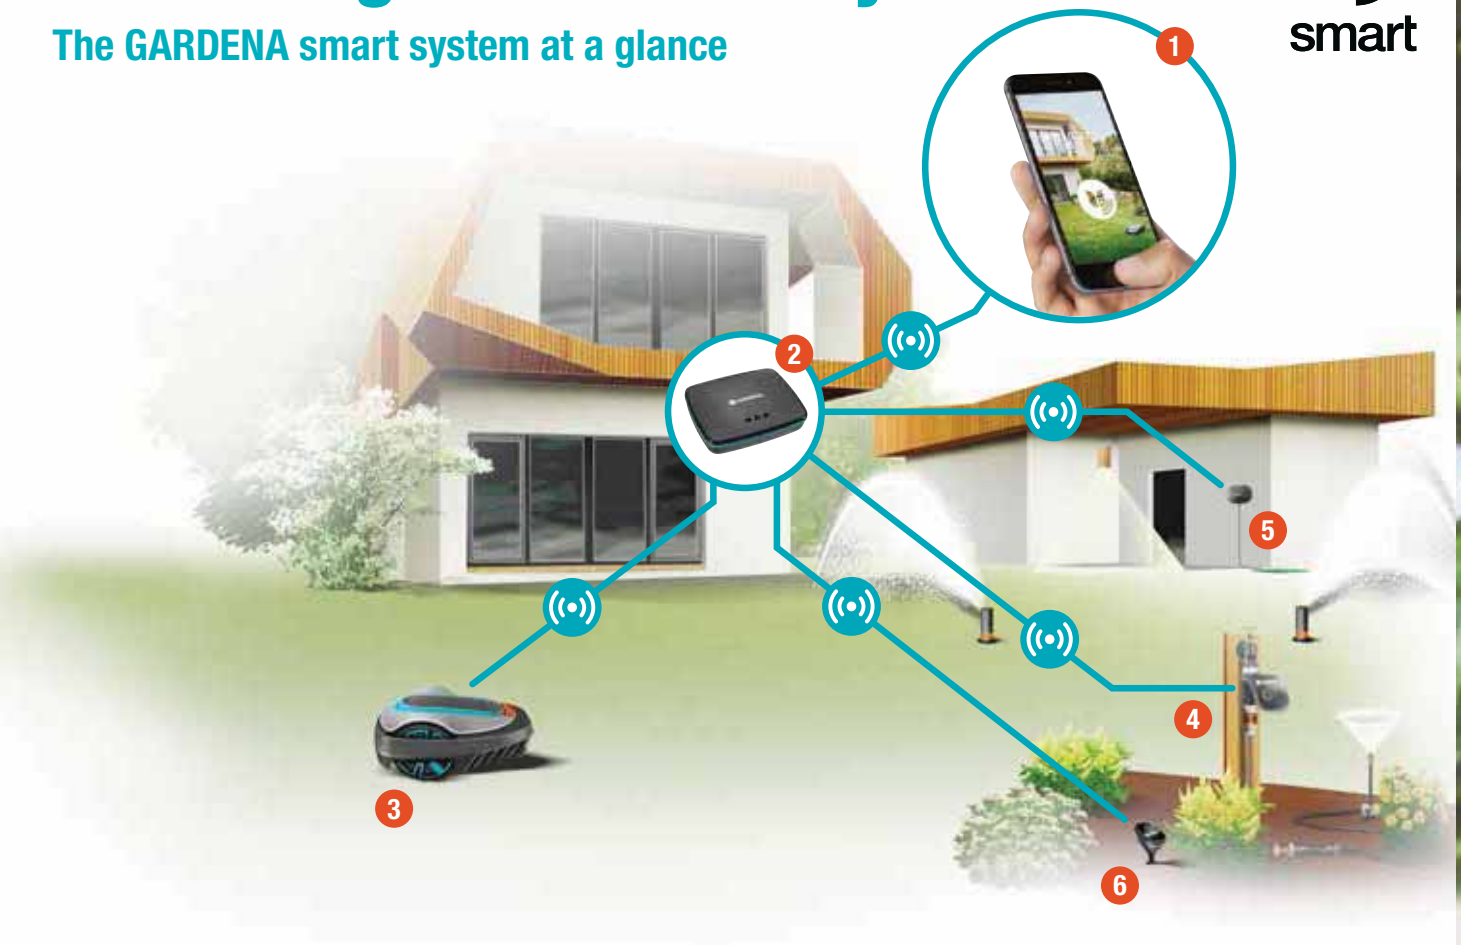

New starter sets and the smart SILENO robotic lawnmowers for every lawn size are especially ideal for getting started with the GARDENA smart system. And once garden lovers have discovered the advantages of a smart garden for themselves, they can easily expand their system step by step.

Also the GARDENA smart app is increasingly developing into an essential companion for around the garden, offering an extensive plant library, helpful garden expertise and a growing number of smart features. This means that your customers can know everything about their "green home" from anywhere and at any time.

Gardening the smart way

The GARDENA smart system at a glance

smart intelligence

1 GARDENA smart App

For iOS, Android and web. Control, information and know how for the garden.

2 smart Gateway

The heart of the networked garden. Connected to your home router either via WiFi or LAN cable.

smart mowing

3 smart SILENO

2 different robotic lawnmowers for lawn care available for small and medium gardens.

smart watering

4 smart Water Control

Water computer for connecting directly to a tap for one area of the garden.

5 smart Irrigation Control

Multi-channel control for an underground watering system covering up to six areas of the garden.

6 smart Sensor

Sensor supplies status data about current soil moisture, temperature and light intensity.

A smart Gateway is required to operate the GARDENA smart system. This Gateway is included in all GARDENA smart system start sets.

Original GARDENA System

For over 50 years, consumers have put their trust in the Original GARDENA System

The connectors for the Original GARDENA System excel through their high comfort of use and reliability as well as durability and highest product quality. And all system parts fit together perfectly – just like before.

Colour scheme allows for easy labelling:

- Light-coloured hose lead – tap connection
- Dark-coloured hose end – dark water stop + output devices

<p>Tap Lead</p> 	<p>Tap Connector</p> <p>For connecting to the tap.</p>	 <p>The non-slip outer contour guarantees a trouble-free and convenient assembly.</p>
<p>Hose Lead</p> 	<p>Hose Connector</p> <p>For use on the hose lead.</p>	 <p>Simply pull apart to rapidly break the connection.</p>
<p>Hose Connections</p> 	<p>Coupling</p> <p>For extending the hose. Also for transitions from 19 mm (3/4") to 13 mm (1/2") hoses.</p>	 <p>Grooved soft plastic grip for comfortable handling.</p>
<p>Hose Repairer</p> 	<p>Hose Repairer</p> <p>For rapid and reliable hose repairs without the need for tools.</p>	 <p>Specially formed, patent pending sleeve nut for high hose retention force.</p>
<p>Hose End</p> 	<p>Water Stop</p> <p>For hose ends with integrated water stop function: Decoupled = automatic water stop. Coupled = water flows.</p>	 <p>Makes it easy to switch between output devices without having to go back to the tap.</p>

WATERING

Easy to change the watering accessories

There is no need to walk to the tap to switch connection units. As soon as the spray nozzle, sprayer or spray lance is disconnected the water flow is interrupted, and only starts again once a new watering accessory is connected to the hose.

Convenient handling

Grooved recessed grips made of soft plastic make for exceptionally comfortable handling.

GARDENA Profi System

The system for greater water power and an increased water flow

The GARDENA Profi System is a special solution for applications where large quantities of water are required and long distances need to be spanned. The system is able to accommodate high-performance pumps and is specially designed for 19 mm (3/4") hoses.

Matching system parts are also available for switching between the GARDENA Profi System and the Original GARDENA System.

GARDENA Sprinklers

MADE IN GERMANY

Ideal watering for every garden

Whether large or small areas, GARDENA offers the ideal sprinkler for every garden and lawn.

All GARDENA Sprinklers are made from premium materials and guarantee a reliable and even watering.

*Warranty Information:
www.gardena.com/warranty
 or +44 (0) 344 844 4558

Circular and Multi-pattern Sprinklers

From the simple small-area sprinkler to the technically sophisticated top model.

With multiple settings.

Oscillating Sprinklers

For even, puddle-free watering of square and rectangular areas.

High quality, durable nozzle and anti-slip features.

Fully adjustable range.

For areas of 90 to 350 m².

Wide-Range Sprinklers

For areas up to 490 m². Adjust per section or set to full circle distribution.

The operating pressure (bar) determines the watered area.
 The performance data given was obtained with an operating pressure of 4 bar at the sprinkler.

GARDENA Cleansystem

MADE IN GERMANY

The water-based maintenance system you can mix and match

The Original GARDENA Cleansystem is the perfect system for dealing with all cleaning work in your home or garden. Simply combine a Cleansystem handle with the appropriate connecting device and the GARDENA Hose – and then attach it to your water tap.

*Warranty Information:
www.gardena.com/warranty
or +44 (0) 344 844 4558

Simply combine

Adapts perfectly to the respective uses through the combination of different handles and connecting devices.

Simply perfect

Soft bristles for sensitive surfaces, hard bristles for robust floor surfaces.

Simply clean

All Running Water Handles with dispenser for GARDENA shampoo and flow regulation for clear water and care product additive.

Simply strong

Flat spray nozzles loosen and remove stubborn dirt.

MADE IN GERMANY

Article designation	Car Wash Set	Shampoo
Article No.	5580-20	1680-20
EAN Code	 4 078500 558006	 4 078500 168007
Quantity in pack / Pallet unit	4 / 36	10 / 2080
Packaging type	4-colour information card	4-colour blister card
Sale/Info	–	Sold only in complete packaging units
Use	Gentle, effective cleaning of vehicles and sensitive surfaces	For effective cleaning of sensitive and robust surfaces and glass
Product Info / Useable for	See Art. No. 5570, 5552, 1680	Art. No. 5552, 5550, 5554
Contents	1 x 5570 Wash Brush, 1 x 5552 Running Water Handle 90, 1 x 1680 Shampoo	–
Special features	–	Biodegradable

Infinitely adjustable flow control

Water quantity and pressure are regulated and locked on the handle. For use with clear water and/or adding care products according to requirements.

Dispenser

Durable dispenser for GARDENA Care Products (Art. No. 1680).

Connections on handle

The connection technology with twist-off cap allows all Original Cleansystem Connecting Devices to be easily connected to a handle.

Top-quality materials

Lightweight and sturdy, made of high-grade aluminium, with easy-to-grip plastic coating for comfortable handling: prevents scratch marks, slipping, and protects hands from the cold.

GARDENA Hose Trolleys / Reels

The hose is always stored in an orderly manner but ready at hand

With the hose trolley, the hose is always neatly rolled and ready for use. Bothersome pulling and carrying of the hose through the garden is no longer necessary.

MADE IN GERMANY

*Warranty Information:
www.gardena.com/warranty
 or +44 (0) 344 844 4558

Hose Trolleys

The new hose trolleys in the AquaRoll series convince with many new and innovative properties.

For particularly high loads, metal models are also available in the new AquaRoll series.

Hose Reel

High standing security through special, three-corner construction with deeply placed centre.

Ergonomic handle for easy transport.

Hose Box

Compact and lightweight, making it ideal for use on the go, such as when camping and during water sports and other recreational activities.

Crank and handle can be folded in.

Wall-fixed Hose Reel

For convenient roll-up of the hose in standing.

Hose protection guide for easy rolling and unrolling of the hose, even around corners (Art. 2650-20).

1 product for 2 applications: For storing the hose on the wall; can be removed at any time for mobile use in the garden (Art. 8009-20).

GARDENA Hose Trolleys

The right hose trolley for every garden size

Our clearly structured product range makes choosing easy. What's more, all of our hose trolleys of the new AquaRoll series are frost-resistant. Lasting quality made in Germany.

MADE IN GERMANY

AquaRoll Series

S

M

L

AquaRoll S – for small gardens

- For max. 40 m 13 mm (1/2") hose
- Compact model with height-adjustable handle

AquaRoll M – for medium-sized gardens

- For max. 60 m 13 mm (1/2") hose
- Maximum stability thanks to the innovative Kick&Stand feature
- New: Now also available with a sturdy metal reel

AquaRoll L Easy – for large gardens

- For max. 100 m 13 mm (1/2") hose
- Maximum stability thanks to the innovative Kick&Stand feature
- Fitted with robust metal hose guide as standard for precise winding
- New: Now also available with a sturdy metal reel

Compact storage

Simply release the lever, adjust the height and then close the lever again to fix the hose in place.

Convenient winding

Ergonomic, comfortable handle for easy winding. Fast folding crank saves space when storing.

Kick&Stand: Guaranteed stability

Thanks to the fold-out supporting foot, your trolley won't fall over again. The trolley's special shape plus its visibly higher wheels provide additional support for the stability of the hose trolley. Simply fold the supporting foot away when storing.

GARDENA Wall-Mounted Hose Boxes

The solution for easy garden irrigation

Comfort is becoming increasingly important in the garden. GARDENA offers a solution for comfortable and easy garden irrigation with the GARDENA Wall-Mounted Hose Boxes.

- Automatic hose winding – no bending over, no cranking, no dirty hands
- Sophisticated technology for safe and reliable hose roll-up
- Pull out hose to desired length – small tug on the hose – hose is rolled up in an even and controlled way
- All models are equipped with 13 mm (1/2") high-quality hose
- Integrated frost protection: All models include the new, innovative GARDENA frost protection technology

Powerful hose retraction

- High-quality spring that is perfectly adapted to the hose length

Even hose retraction

- Effective centrifugal brake

Practical

- Locking stops engage clearly at regular distances of max. 50 cm
- Function can be deactivated with a quick tug of the hose

High-quality

- Complete with 1/2" (13 mm) high-quality hose for a high water flow, e.g. when using a sprinkler

Space-saving

- Box can be swivelled by 180°

Wall-Mounted Hose Box roll-up automatic

Powerful steel spring for safe and reliable roll-up.

Pull out hose to desired length – small tug on the hose – hose is rolled up in an even and controlled way.

- 15 m for smaller gardens and patios
- 25 m for medium-sized gardens
- 35 m for larger gardens

Includes wall bracket with screws, wall plugs and assembly aid
Special features	Integrated frost protection, can be swivelled by 180°, hose guide, integrated handle, theft protection, anti-drip device				

Flexible in use and easy transportation

The practical wall bracket makes it possible: the hose box can be swivelled at a 180° angle. In this way, the hose does not bend when watering and the box can be folded back to the wall after use. In winter, the box may simply be removed from the bracket and stored in a frost-proof place.

Everything at hand

The hose is always on hand and at the same time there are various watering accessories nearby. Nozzles, sprayers and wash brushes can be easily attached and stored on the wall bracket.

GARDENA Hoses

Innovative products – everything fits together!

GARDENA FLEX Quality Hoses with Power Grip profile for the ideal fit of the hose and the Original GARDENA System Parts. Both parts engage with each other like gears thanks to innovative technology. Boasting the typical GARDENA design, the elements form a single unit both technically and visually – a guarantee of quality.

All GARDENA hoses are resistant to UV and free from phthalates and heavy metals.

Power Grip Profile

GARDENA FLEX quality hoses with Power Grip profile for perfect connection and optimal fit of the hose with Original GARDENA System Parts.

Dense, high-quality spiral mesh textile

Thanks to high quality textile, the garden hose does not tie itself in knots or twist. This hose is flexible, yet keeps its shape.

Unusual design

With high recognition value. Fits perfectly into the Original GARDENA System.

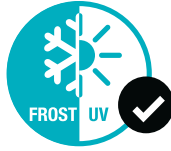

Phthalate and heavy metal-free

The GARDENA Hoses are heavy metal-free and free of poisonous plasticisers (phthalates).

GARDENA Textile Hoses

The robust and agile Textile Hose Liano

GARDENA's premium quality with a new look: The new GARDENA Liano consists of an inner hose covered in a highly durable textile fabric. Even when you drag it over the terrace or it brushes up against a prickly rose bush, it won't damage the hose. It is convenient to use, with no annoying twists or kinks. Unique, exclusive technology with a 30-year warranty.

Maximum flexibility

- For excellent manoeuvrability: does not kink or twist, even in cold temperatures

Light weight

- For ergonomic handling and easy storage

High durability

- Excellent burst resistance due to durable woven fibre technology

Safe, leak-free connection

- A tight fit thanks to an extended clamping nut that prevents the hose from slipping off

Easy storage

- Works perfectly on hose reels and trolleys

GARDENA Spiral Hoses

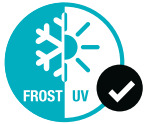

*Warranty Information:
www.gardena.com/warranty
or +44 (0) 344 844 4558

- Comfortable watering of plants on terraces and balconies or for watering smaller areas such as front gardens
- Automatically coils back after use

Every drop counts

Clever irrigation – use water efficiently

Water is a precious resource that needs to be used sparingly: **every drop counts**. So watering the garden efficiently is particularly important. The clever watering solutions from GARDENA supply individual plants with the right amount of water — neither too little nor too much. This type of watering not only saves water, but also simultaneously contributes to optimal plant growth.

Efficient watering

- Saves water and money
- Enhances the growth and health of plants
- Saves time and is more convenient

Efficient watering solutions from GARDENA help to properly care for and maintain your plants

Micro-Drip-System

- Uses precisely the right amount of water
- Waters the root directly
- Saves up to 70% water compared to conventional watering methods

Holiday and flower box watering

- Supplies the plants with water during vacations
- Exact water supply for healthy plants
- Irrigation without a tap

Water control

- Ideal care for your plants, without having to be there yourself
- Waters at night or in the morning when evaporation losses are at their lowest
- Avoids unnecessary watering when the soil is moist and watering is not necessary

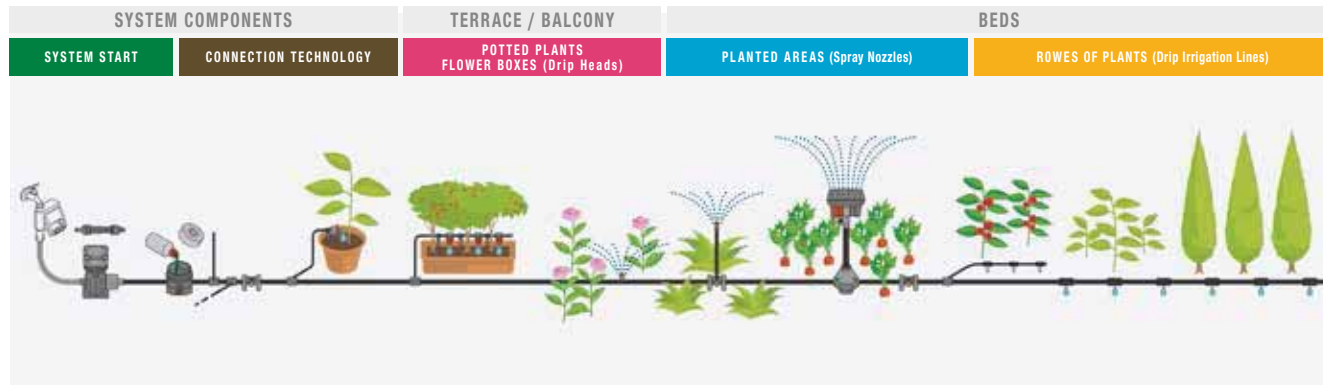

Find out more at www.gardena.com/cleverwatering

GARDENA Micro-Drip-System

Water-conserving garden irrigation

- For versatile use on the balcony, patio or in the vegetable and flower garden
- Innovative, clever system solutions enhance the ease of use
- Can be automatically controlled with a GARDENA Water Control

Flower Pots

Precise watering of pot plants and planter troughs using drip heads

- Regulate the amount of water
- No continued dripping after the tap is turned off
- Self-cleaning

Planted Areas

Flexible spray nozzles enable plants to be watered to optimum effect where vegetation times are short for plants in flowerbeds and vegetable patches

Rows of Plants

Root watering with pinpoint accuracy using irrigation lines

- Self-cleaning drip head
- Special labyrinth technology prevents ingress of roots

Patented "Quick & Easy" Pipe Connection Technology

- Permanently sealed pipe connection
- Easy to loosen if required
- For faster system construction and conversion

Outdoor Cooling Mist Set

Article designation	city gardening Outdoor Cooling Mist Set	city gardening Micro Mist Nozzle
Article No.	13135-20	13136-20
EAN Code	 4 078500 034852	 4 078500 034876
Quantity in pack / Pallet unit	3 / 129	6 / 630
Packaging type	4-color display carton	4-colour blister card
Sale/Info	–	–
Application	The Outdoor Cooling Mist Set provides a cooling effect when outside on hot summer days. A fine water spray, spread by the micro mist nozzles, cools temperatures by up to 6 °C. It can be easily installed on balconies, terraces, under parasols and in tents. The system is connected to the tap using an integrated OGS hose connector.	Micro mist nozzles produce a fine water spray that refreshes and cools on hot days. The replacement micro mist nozzles are used with the Outdoor Cooling Mist Set Art. No. 13135-20.
Contents	10 m hose, 3.5 mm internal diameter, 7 Micro Mist Nozzles (incl. 1 Micro Mist Nozzle with water stop), 13 fixing clamps, 13 screws, coupling with control valve and hose connector	3 replacement micro mist nozzles
Water flow	13 l/h	1.9 l/h
Use	Can be extended with additional sets Art. No. 13135-20	With Art. No. 13135-20

High level of comfort

The Outdoor Cooling Mist Set ensures a high level of comfort on hot summer days thanks to the refreshing and cooling water spray.

Broad range of applications

Offers a variety of installation options, such as on balconies, terraces, under parasols or in tents.

Convenient watering

Water is supplied by a direct connection to the tap using the OGS hose connector. The Micro Mist Nozzle with water stop prevents water leaking.

NatureUp! The vertical garden system

More nature: Plant and water walls

On the smallest balconies, terraces and patios, something is happening. Vertical gardening is adding greenery to walls. With the help of automatic watering, you can relax and enjoy your green oasis.

More space for greenery! More time to unwind. Transform bare walls into blooming wonders. NatureUp! The system for vertical gardening:

- Transforms the smallest spaces into oases of well-being with flowers, herbs and vegetables
- Offers new design options
- Impresses with smart design
- Adds nature & freshness
- Can be watered intelligently
- Weatherproof

Space-saving

The vertical plant wall only needs a small area. A variety of plants can be grown in a tiny space. There are no limits to creativity.

Individual

The flexible system can be expanded in modules and connected without tools. The planters can stand on the ground or be hung up. A range of fasteners offer extra safety.

Intelligent water supply

Excess water from the planters is directed into the collectors on the base plate via an integrated drainage system.

Clever Watering Sets

- Reliably water your green wall. Even when you are on holiday or away
- Plants are looked after in the best way possible with the correct amount of water
- Saves time, gives you freedom
- Water saving
- Installed conveniently, flexibly and simply
- Precisely and evenly, waters the root directly
- Automatic management is possible with Water Control (optional)

GARDENA Sprinklersystem

Convenient, reliable and easy installation

Pop-up sprinklers that can be permanently installed below ground keep your lawn looking beautiful and vanish out of sight again when their work is done.

The GARDENA Sprinklersystem range:

- Reliable and high-quality Pop-up Sprinklers
- Clever and innovative system modules
- Automatic drain valves for frost protection
- Automatic controlling possibilities

1

Frost-proof

The entire system becomes frost-proof by using a Drain Valve.

2

Pop-up Sprinkler

For small and large lawn areas, with excellent product advantages

Example T200/380:

- Easy nozzle selection without nozzle assembly
- Tool-free setting of the watering sector
- Vandal-proof thanks to sector memory function

3

Pop-up Oscillating Sprinkler OS 140

The innovation for irrigating rectangular and square areas.

Can be adjusted to use for areas from 2 – 140 m². Adjustable water-flow quantity.

Especially even water distribution through 16 self-cleaning precision nozzles made of soft plastic.

4

Large-Area Irrigation AquaContour automatic

Irregular shaped lawn areas are watered evenly and contour- exact using 50 programmable key contour points.

Patented Connection Technology "Quick & Easy"

The numerous system components ensure a flexible installation of the system for various lawn areas.

- Pipe assembly / disassembly by turning the connecting pieces 140°
- Weather and UV-resistant

Special features	With "Profi" Max-Flow System parts for a larger water quantity and less pressure loss		Also for connection from 19 mm (3/4") to 25 mm Connecting Pipe (in connection with Art. No. 2763)	Install at the lowest point of the system. The entire system becomes frost-proof by using a Drain Valve.

GARDENA Water Controls

The new full range with innovative features for automatic and water-saving garden irrigation

- Automatic irrigation with mobile sprinklers, Micro-Drip-System or Sprinklersystem – the water-saving solution that gives you more time to enjoy your garden
- "Safe stop" technology: 100% safe closing. The unique technology prevents watering if the battery level is too low

For beginners

- Manual Tap Timer
- Water Control Flex

Popular programming options.

Innovative features such as optimum watering options for plant pots.

For demanding gardeners

- Water Control Select
- Water Control Multi Control Duo

Flexible irrigation settings.

For passionate gardeners

- Water Control Master

Individual programming of up to six independent schedules. Automatic irrigation of up to six garden areas one after the other when combined with a Water Distributor automatic.

Water-saving:

A connected soil moisture sensor prevents scheduled watering if the soil is already sufficiently moist.

Unique, convenient user interface

- Easy to adjust thanks to an intuitive push and turn principle
- Large display and angled control unit make it easier to adjust settings
- Angled control unit for optimal readability
- Weather-proof electronics

Requirements	–	–	smart Gateway, Wi-Fi router and Internet access, smartphone, tablet or pc	–
Special features	Reliable long-term operation due to electronic measurement of temperature differences in the soil. Displays the current soil moisture level. With 5 m connection cable and plug	Length 10 m. For use above or below ground	Measured values: Soil moisture 0 - 100 %, Light intensity 0 - 200.000 Lux, External temperature -1 - +50 °C	Garden areas are watered as per the programming of the Water Control one after the other. With 26.5 mm (G 3/4) male threads. Complete with 5 Tap Connectors (Art. No. 18201) and 3 End Caps

Water-saving sensor technology

The Flex, Select, Master and MultiControl Duo Water Control systems are compatible with a GARDENA Sensor (Art. No. 1188). A sensor interrupts or prevents the scheduled watering in cases of sufficient soil moisture or rain.

Control of up to 6 irrigation areas

Fully-automatic control of up to 6 irrigation devices. Ideal for individual plants and garden areas with varying water requirements, or when the water quantity is insufficient for simultaneous supply of all watering accessories. Garden areas are watered as per the programming of Water Control one after the other.

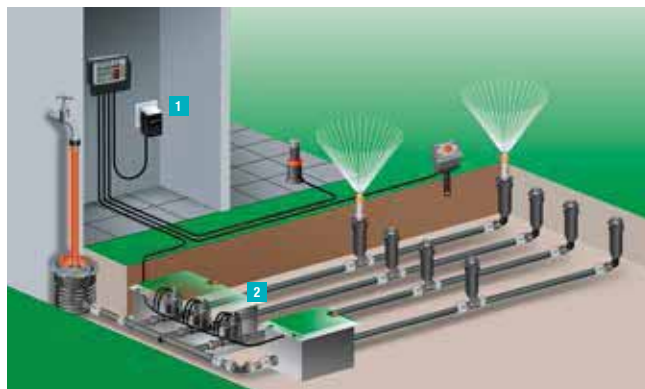

GARDENA Irrigation Control System

The competence range for automatic control of irrigation systems

GARDENA Irrigation Control Systems are ideal if the tap water supply is not sufficient to operate the whole irrigation system at once or if the areas of the garden have different water requirements.

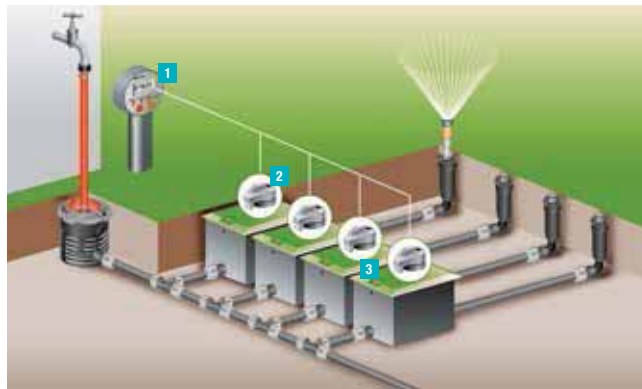

The smart Irrigation Control Water Control is fully integrated into the scope of the smart system. All irrigation assignments for the entire garden can be conveniently configured in the smart system App.

- Valve control with or without power connector is possible – battery powered or 230 V connection to mains
- Water flow opens and closes automatically
- Numerous and independent programmes for each Watering Valve is possible
- Simple programming through user guide
- Sensor connection for water-saving irrigation. Soil Moisture Sensor prevents or interrupts irrigation when soil is sufficiently moist or when rain has started

For valve control by cable

Through a water control mounted on a wall **1**, the valve **2** receives an impulse by direct cable as to when the water flow should open and close. Thereby, up to six Irrigation Valves 24V can be controlled fully automatically.

For decentralised, cable-free valve control

Using a mobile programming unit **1**, the controller **2** can be programmed which is then attached to the Irrigation Valve **3** and opens and closes according to the data input. It is all wireless – with battery – and allows as many 9V Irrigation Valves to be controlled as desired.

Telescopic screwed connection for easy valve installation/removal. Waterproof junction box for clearly-arranged 24V cabling. Central drain cap for draining the supply line before frost. Cover can be locked for child safety. 4x1" male thread	Easy to connect by pressing a button. Cable cross-section from 0.33 to 1.5 mm ² . Max. cable diameter 3.9 mm. Max. voltage 30 V

GARDENA Robotic Lawnmowers

Do what you love

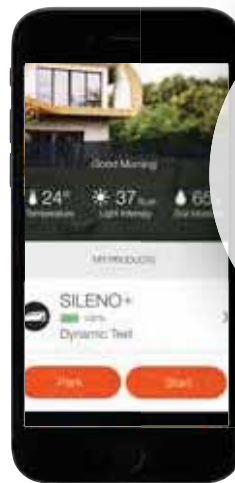

Quiet. Agile. Fully automatic. Precise and reliable. The robotic lawnmower makes your garden a more relaxing place to be – and has done so for a long time now. After dedicating a lot of time to conceiving the product, followed by intensive research and development within our group of companies, we set the robotic lawnmower to work on the world's lawns more than two decades ago.

Unlike any competitor, with the launch of SILENO life we are going to offer

- a robotics range for very small to really large gardens
- premium quality based on 20 years of experience in the field of robotic lawnmowers
- a comprehensive, DIY optimized product family
- all models also available within the smart system as smart model

GARDENA smart system App

With the free GARDENA smart App for iOS, Android and web, control of your robotic lawnmower is at your fingertips. You can also manage all of your smart system irrigation devices via smart App.

Robotic Lawnmowers

For smaller lawns

The trend is moving towards smaller garden plots. Users can spend more time on their vegetable and flower beds or take more time for themselves and let the robotic mower SILENO city take care of cutting the lawn.

For complex gardens

For small lawns that are complex or have a winding structure, the SILENO city robotic lawnmower offers more customisable settings. The remote start function lets you decide how often your robotic lawnmower heads for the hard-to-reach areas of the garden. EasyPassage guides it without difficulty along the guide wire through narrow passages. The charging station can also be placed in narrow areas.

SensorCut system

Stripe-free and uniform mowing. Because the robotic lawnmower mows in various directions, the cross section is even and very clean. Daily care will help the lawn to become thicker and to achieve the appearance of a green carpet.

Watertight

The feature many have been waiting for: The SILENO city model can easily be cleaned with a garden hose.

Can be operated in all weathers

GARDENA robotic lawnmowers are technologically one step ahead and as a result can be used in all weathers. It is therefore no longer necessary to have a rain sensor to stop the mowing process in wet weather.

Extremely quiet

Thanks to Silent Drive motors, GARDENA offers the quietest robotic lawnmowers on the market and so your little helper won't bother you or your neighbours.

GARDENA Electrical and Battery products

**Full power. Low noise.
Greater independence. Full flexibility.**

Always ready to use, extremely flexible and environmentally friendly – electric and battery-powered garden equipment is becoming increasingly popular amongst amateur gardeners. Since 1973, GARDENA has been a pioneer leading the way for technological progress in the garden, and has worked continuously to develop its products ever since. Garden owners know the value of convenience and are now opting for Electrical and Battery products from GARDENA more often when choosing lawnmowers, trimmers, hedge trimmers, grass shears and shrub clippers.

Battery Grass Shears

Integrated Li-ion battery

18 V Li-ion battery system

230 V mains adapters

The new generation of wireless freedom

The latest GARDENA Li-ion battery technology

- No memory effect, can be charged at any time as required
- Long battery life with consistently high performance

GARDENA Battery Management System for increased safety

- High-tech electronics for full control of all battery processes
- Gentle but fast battery charging
 - Even discharge with overload protection and deep discharge protection
 - Safe storage without self-discharge

GARDENA POWER info indicator

- Clear charging status indicator with 3 LEDs

Lightweight and robust

- Low weight for optimum working comfort
- Resistant thanks to a particularly robust housing

Integrated Li-ion battery

Integrated Li-ion batteries are ideal for devices in continuous use, such as Robotic Lawnmowers. They are also particularly suitable for extremely light and compact garden equipment, such as Battery Shears.

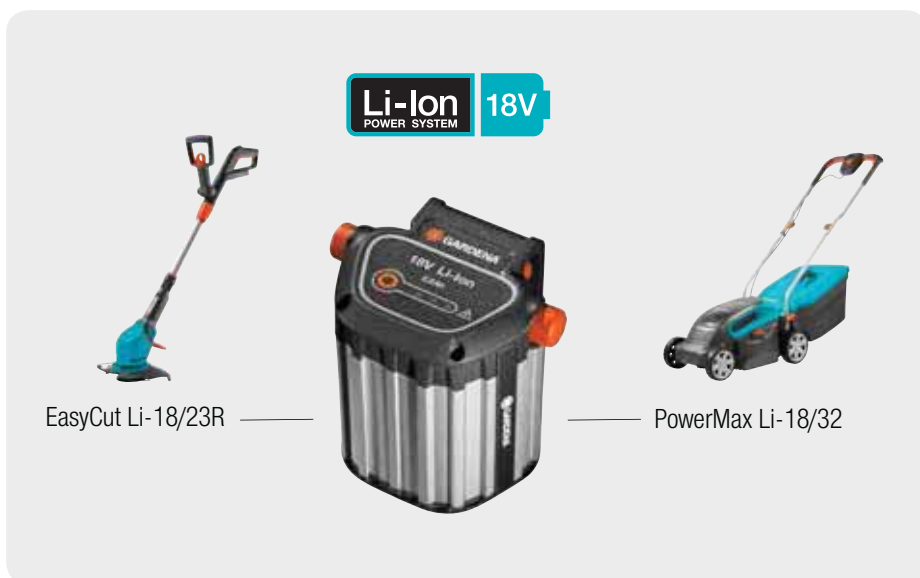

18 V Li-ion battery system

The models with the 18 V Li-ion battery system allow full freedom of movement and provide high battery power for mains-free operation. The replaceable system battery can be used in various devices.

18 V battery system

One system battery – a growing range of possibilities

Set offers or individual devices

New!

- Step 1 for getting started with the GARDENA Battery System: Purchase a set containing a product, battery and charger (as a basic setup)

- Step 2: Expand your own system with any device. No additional charger or additional battery are necessary.

GARDENA PowerMax™ Electric and Battery Lawnmowers

Powerful and Ergonomic

Our PowerMax™ Electric and Battery Lawnmowers provide optimum grass coverage and excellent cutting results thanks to the PowerPlus Motor and the DuraEdge double hardened blade.

GARDENA Trimmers

The perfect tools for any challenge

Robust rechargeable battery or electric-powered trimmers

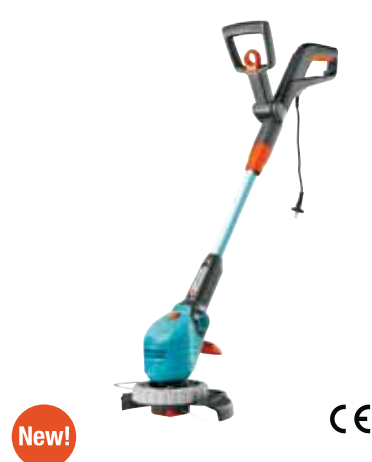

- For trimming lawn edges quickly and effectively
- For cutting grass in hard-to-reach areas
- For tackling tough grass or overgrown areas

Powerhouse electric trimmers for high-performance needs. Ideal for long grass and large surface areas too.

Our light, adaptable and battery-driven trimmers offer freedom of movement and there's no need for a power supply cable! They run on a high quality Li-Ion system battery with charging status indicators and a long operation time.

GARDENA Mechanical Grass Shears

Ideal for the precise, mechanical cut of short lawn edges

Ergonomic handles for ideal handling. Suitable for right-handed and left-handed users. Wave-ground cutting blades for a precise cut and top finish lawn edge.

MADE IN GERMANY

*Warranty Information:
www.gardena.com/warranty
 or +44 (0) 344 844 4558

Blades rotatable through 360°

Effortless work for right-handed and left-handed users.

Wave-ground

Cutting blade and runner – keep the grass in the cutting area and ensure easy and precise cutting with a consistent cutting height.

Special comfort handle

Fits perfectly in the hand and cuts very easily. Force is applied via index finger and middle finger.

With handle

For an upright working position protecting the back.

GARDENA Hedge Clippers

*Warranty Information:
www.gardena.com/warranty
or +44 (0) 344 844 4558

Combines innovation and proven quality

Whether for exact shaping or for large-scale cutting back: each product is optimised for its intended purpose and is designed for the needs of the user.

Short blades and straight-ground blades

For the exact shaping of shrubs, e.g. boxwood.

Long wave-ground blades or special toothing

Suitable for larger areas.

Gear transmission

Simple and effort saving to cut through thick branches.

The right Hedge Clippers for every application

Classic

Trust the proven methods: traditional materials and solid workmanship.

Comfort

Outstanding cutting results and ease of use. Integral Technogel® gel pads and two-component buffer for optimum shock absorption.

Premium

High-quality materials and technical details create the special character of the tool and make these hedge clippers especially powerful and robust.

Easily achieve
more cutting power

*Warranty Information:
www.gardena.com/warranty
or +44 (0) 344 844 4558

Innovative solutions and state-of-the-art materials ensure extra comfort and superb cutting results.

EasyCut

Classic pruning loppers. Cutting branches is easy due to being lightweight with excellent ergonomics.

EnergyCut

Pruning loppers with integrated transmission for powerful cutting. The gear ratio guarantees huge reductions in effort, even when cutting stronger branches.

TeleCut

Telescopic pruning loppers. Adjustable lever arms make precise cutting of far-away branches easy.

SlimCut

Pruning loppers with 0° opening width and integrated two-gear transmission. The long aluminium handle and extra-slim head means these loppers are ideally suited to thinning dense bushes and shrubs.

Bypass

The double-edged shears are ideal for fresh wood.

Anvil

The stable anvil is suitable for hard, dry wood and provides support when cutting the branch, preventing damage to the bark.

ErgoTec handles

Ergonomic handles with soft components provide the required anti-slip properties, also ensuring easy handling and safe working.

Precision-ground blades

The precision-ground blades with excellent cutting geometry allow an easy and precise cutting which is particularly gentle on plants.

The lock connection avoids the inner pole from unexpectedly sliding down.
Oval-shaped handle provides increased stability and prevents inner tube from turning.

Adjusts to your needs

Easily adjust your pole length with the push-button mechanism.

Safely attach tools

A large, non-detachable fastening screw with soft components enables tools to be connected securely.

Oval-shaped handle

Oval-shaped handle provides increased stability and prevents inner tube from turning when performing adjustments.

GARDENA Gardeners' Saws

A strong range for all sawing work around the house and garden

*Warranty Information:
www.gardena.com/warranty or +44 (0) 344 844 4558

Bow Saw

Ideal for thick branches and logs.

Long-lasting cutting quality and low maintenance.

Comfort handle with hand protection and second grip option on bow.

Convenient, easily adjustable screwing mechanism.

Suitable for green and dry wood.

combisystem Saw

A diverse range of applications possible.

Can be used as a hand saw or with the GARDENA combisystem handle range.

With crossed toothting or triple-ground precision toothting.

Anti-slip during pulling movements thanks to handle with soft components and additional stop.

Gardeners' Saw

Hard-chrome-plated surface for high protection against corrosion and wear.

Impulse-hardened toothting with triple grinding for extreme sharpness and a clean cut.

Impulse-hardened toothting tips for durable, professional quality.

Lock into three possible positions for diverse applications.

GARDENA Axes and Hatchets

An axe for all wood chopping needs

For felling, splitting, pruning and hewing wood.

*Warranty Information:
www.gardena.com/warranty
or +44 (0) 344 844 4558

Application-adapted blades and axe head geometry

The blade and head geometry of the GARDENA Axes and Hatchets are adapted to the application and work situation, and thus guarantee optimum working results.

GARDENA Splitting Axes, with their cutting angle and wedge-shaped axe head, are particularly suitable for splitting firewood.

Impact protection

The riveted stainless steel shaft protection protects the handle even if a hit goes astray.

Hammer function

For easily and effectively splitting wood.

The processed impact surface is gentle on wedges and chopping blocks.

Suitable for all common wedge types such as wood, plastic and aluminium wedges (not for steel wedges).

Axes and Hatchets with special characteristics

Application-adapted blade and axe head geometry

Hardened blade made from premium tool steel

Stainless steel impact protection

Glass-fibre reinforced plastic

Soft component on handle

Hammer function

Durable head-handle attachment

Centre of gravity close to axe head

Hook-shaped handle end

GARDENA Special Tools

Great helpers, each with many uses

Gripper – gentle on the back, pick up waste and other bits without bending down

Gripper

The easy way to pick up waste and refuse while being gentle on the back. Gripping and spiking function in one unit.

Special Tools

Article designation	Gripper Assortment
Article No.	3067-20
EAN Code	 4 078500 306706
Quantity in pack / Pallet unit	25 / 250
Packaging type	4-colour display
Sale/Info	Sold only as display with 25 pieces
2 in 1 Function	• (gripping and spiking)
Uses	The easy way to pick up waste and refuse which is gentle on the back
Material	Spike made of steel, non-rusting
Special features	Simple removal at the press of a button. Metal ply section in the upper gripper arm for removing refuse suitable for right and left handed people

GARDENA Spreaders

Innovative and convenient – create a beautiful lawn effortlessly

The right model for every garden size and every application.
No more materials trickling out! Manual opening and closing prevents spreading materials from leaking accidentally.
Rotation technology for efficient and quick application.

Suitable for sowing and fertilising. Can be used all year round, also for spreading road salt.

Small Caster S

For targeted distribution of spreading material.

Hand-Held Spreader M

Ideal for small to medium-sized lawns and city gardens. Quick and easy thanks to intuitive crank mechanism.

Spreader L

For medium-sized gardens. Spreading material no longer escapes accidentally. Handle with open/close function. Patented closure strip with soft plastic lip. Ergonomic quantity setting in upright position.

Spreader XL

For larger gardens. Up to approx. 6 cm spreading distance for convenient distribution over large areas. Spreads exactly to the edge due to limited sideward casting distance.

GARDENA Sprayers

For care using irrigation, fertiliser or plant protection

Pump and Pressure Sprayers are useful tools to finely water and to distribute fertiliser or plant protection products. GARDENA has the right model for every requirement.

GARDENA Pump Sprayers - For small water quantities

Ideal for flowers in the home, on the patio or in the garden. All GARDENA Pump Sprayers rest nicely in hand and hold water quantities from 0.5 or 1 litre.

GARDENA Pressure Sprayers - For larger water quantities

GARDENA Pressure Sprayers hold between 1.25 and 12 litres and are convenient for trees, shrubs, orchards or large flower beds. Thanks to the large opening, it is easy to fill the pressure sprayers.

GARDENA city gardening

Gardening is everywhere – including the heart of the city

The trend is unmissable; more and more people are being drawn to urban living and they are all keen to make their space their very own private oasis. After all, living centrally and having your own green space isn't mutually exclusive, because more and more plants are blossoming, sprouting and flourishing on balconies, garden terraces and roof terraces. The motto is: Out with the grey, in with the green!

GARDENA city gardening lets you unleash your passion for gardens, however small the space. Looking for the green in the city? Look no further! GARDENA city gardening makes the city more green, more colourful and more pleasant. Right outside your own door.

Plenty of green, however small the space

Small urban gardens (up to 100 m²)

- Terraced house gardens/ gardens in the backyard
- Tiny spaces with lawn, beds and hedges
- Limited storage space
- Water supply available
- Oases of well-being – peaceful and private

Terraces/roof terraces (20-50 m²)

- Average size 20-30 m²
- Plenty of potted and container plants
- Extremely limited storage space
- Water supply usually available
- Private retreats

Balconies (5-30 m²)

- Extremely limited space
- Exclusively potted and container plants
- Small and manageable
- Minimal storage space – desire for compact and space-saving solutions
- Water supply rarely available
- Tiny paradise

GARDENA Planting and Topiary Trimming Mats

For potting, repotting and topiary trimming. Dirt-free.

These mats serve as a practical sheet for all repotting and topiary work. They can be used anywhere: on your balcony or terrace, in your apartment... so everything stays clean! Any soil and clippings can be disposed of quickly. The mats are the ideal solution for reducing dirt and improving convenience.

New products

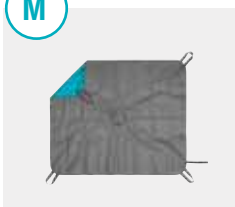

S

Planting Mat S for potting and repotting

- Edges can be adjusted using push buttons
- Water-repellent material

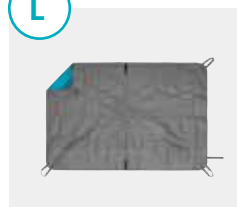

M

Planting Mat M for potting and repotting

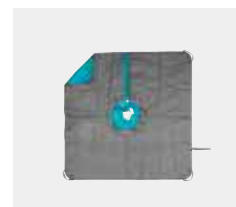

- Edges can be adjusted using push buttons
- Water-repellent material
- With four handles
- With sealable opening for emptying

L

Planting Mat L for potting and repotting

- Edges can be adjusted using push buttons
- Water-repellent material
- With four handles
- With sealable opening for emptying
- With knee cushions

Topiary Trimming Mat

- Water-repellent material
- With four handles
- With adjustable collar for adapting to the pot or plant stem

S

Work dirt-free

Lay down the mat and adjust the edges using the push buttons to ensure that soil and plant waste will not fall onto the table or floor. The contents can be easily emptied into a bin or compost heap – so everything stays clean.

M

Practical emptying

So convenient: Simply open the centre tab to empty soil and plant cuttings through the mat opening and into the bin or compost heap. Handles make it easy to empty and transport the mat.

M

L

Kneel in comfort

Keep comfortable while you pot or repot plants: Knee cushions in the mat take the pressure off your knees as you work on the ground.

Collect topiary trimmings

Simply place the "collar", i.e. the adjustable opening in the topiary trimming mat, around the plant stem or pot, cut the plant into shape, fold up the mat and empty any twigs and leaves into the bin or compost heap.

NatureUp!

The vertical garden system

On the walls, get set, grow!

Gardens in cities are currently growing towards the skies. On balconies, terraces, patios and in small gardens. NatureUp! is the latest trend to bring green into the city.

The mission is: To grow a variety of plants in small spaces – making the city prettier, greener and more colourful.

Want to instantly enjoy a new garden? Start your own green paradise right on your doorstep, whether it be on the balcony, terrace or front door. You can see greenery and flowers growing horizontally in many places already but greenery is now conquering vertical spaces too. We are finally using spaces that have never been planted before. City oases are being created at eye and nose level in the smallest of spaces. It is very easy to add greenery by incorporating practical design elements along the whole wall.

This is why NatureUp! is the latest trend

- Transforms the smallest spaces into oases of well-being with flowers, herbs and vegetables
- Offers new design options
- Impresses with smart design
- Adds nature & freshness
- Can also be watered intelligently (optional)
- Weatherproof

Wall Bracket

Wall bracket including screws and wall plugs. The plant elements can be easily hung up and attached like a picture on a wall.

Modular

Simple set-up and dismantling thanks to interlocking elements. Constant changes and expansion possible. Can be flexibly extended to the right, left, above and around the corner.

Easy to assemble

The individual modules can be easily fitted together without any tools.

Urban garden

CE

Article designation	SILENO city
Article No.	15001-28
EAN Code	 4 078500 038423
Quantity in pack/Pallet unit	1 / 4
Packaging type	4-colour display carton
Sale/Info	–
Working width	–
Recommended lawn area	< 250 m ²
Cutting height, min - max	20 - 50 mm
Weight	7.0 kg
Material	High-quality plastic
Use	Automatic lawn care
Special features	Easy installation — installation assistant and flexible positioning of charging station, convenient cutting level adjustment, covers very tight spaces in the garden, extremely quiet, simple to clean using garden hose
