# 20 years of ONE+ Innovation

**AN INDUSTRY BREAKTHROUGH**

1996 + 2000

The ONE+ System launches, the 1st of its kind for DIY'ers.

**MARKET LEADERS IN INNOVATION**

2004 + 2012 + 2013

Ryobi goes hyper green.

Groundbreaking Lithium+ battery technology launches. Makes your tools work better and your batteries last longer.

Hybrid technology revolutionises the way you power your tools, so you never run out of power.

**A FIRST FOR THE DIY MARKET**

2015 + 2016

Innovation is at Ryobi's core with the introduction of Ryobi's first Brushless drill.

The 1st ever DIY 5.0Ah battery launches and, once again, Ryobi proves they are designed to do more.

## Celebrate the 20th Anniversary of the Ryobi ONE+ System.

An industry breakthrough that has stood the test of time, ONE+ meant a variety of different tools could all share the same battery. That hasn't changed. In fact, the ONE+ tools you bought

back then are not only compatible with the cutting edge ONE+ batteries of today, but thanks to our Lithium+ technology, they will actually work even better than ever. So, dig out that old

grass trimmer or hedge trimmer, upgrade the battery and re-discover the incredible power and versatility of the Ryobi ONE+ range that now features over 40 tools for the home and garden.

Wish Ryobi a Happy Anniversary using **#20yearsONEsystem**

# 18v ONE+ SYSTEM Car Care

Keep your car looking like new with Ryobi's ONE+ cordless tools. You'll only need one battery to power them all.

## Get your car sparkling on the outside.

The ONE+ Buffer will have your bodywork shining like new.

## Never get left in the dark.

Whether you need to see under the bonnet of your car or you have broken down in the dark, the ONE+ Lights have you covered.

## Get the pressure just right.

Ensure your tyres have the correct pressure with the ONE+ Inflator. Measure it, set it and inflate your wheels without the need to take your car to the garage.

## Soundtrack to your work.

Listen to the radio or connect your phone via Bluetooth to listen to your favourite tunes whilst you work with the ONE+ Radio.

## Looking like new on the inside.

Ensure your car interior is always clean and tidy with the ONE+ Handvac.

## Need to change a tyre?

The ONE+ Impact Wrench makes light work of loosening and tightening nuts on your wheels. So, you can change your wheel quickly with ease whenever you want, wherever you want.

Mowing Hints & Tips

The perfect way to mow your lawn.

In search of a greener grass? Well why not try some of these handy tips to improve your lawn quality.

The height of your mower and the frequency you mow your lawn determine how healthy and attractive your lawn looks.

To get a much denser turf you should cut your lawn little and often. Ideally, once a week.

Also, wait for your grass to dry before mowing. Wet grass can clog up your mower and result in an uneven cut.

**Grass Trimmers are smaller and lighter. They are used to cut and tidy up stray bits of grass around the edges of your garden or patio. They use fine plastic string (called the 'line') to do the job.**

**Brush Cutters are more robust and are used to combat tough shrub and overgrowth, high grass, heavy brushwood and small trees. They use a metal blade for heavier cutting.**

**2-in-1**  
**Ryobi Brush Cutters double up as Grass Trimmers. So, now you can have both tools when you buy one Ryobi Brush Cutter.**

**Steps for effective hedge & tree care**

You might find it easier to use a pole hedge trimmer or saw for thick and hard-to-reach branches.

When cutting hedges, trim them layer by layer cutting a little bit of foliage at a time. This ensures you don't cut too much of your hedge off!

Manicured hedges should be tapered on both sides so that the base is wider than the top and light can reach the bottom of the hedge.

People sometimes use lines or wire to mark where you want to trim, so you have an even flat hedge at the end, shaped exactly how you want.

# The Garden clean-up doesn't have to be a chore!

Autumn is the prettiest time of the year with multi-coloured leaves adorning your garden. But those pesky leaves can suffocate your lawn and make slippery surfaces on patios. Have a garden clean-up and see the benefits come springtime!

Turn your leaves into natural fertiliser full of healthy nutrients for your garden. Simply use Ryobi's electric blower vacs with mulching capability to shred leaves and add to your compost heap.

Get the whole family involved. Blow or rake leaves into a pile before collecting them up with a leaf vacuum.
