

Norman is a real person and is our expert head of Quality Assurance. Norman appears here to bring to your attention features, technical or quality issues.

More importantly the reasons why, on occasions, it's worth paying a little more for a product that may look similar to a cheaper alternative but is much better.

norman says

ENGINEERS COLD CHISELS

Unlike builders cold chisels, which are designed to be used on brick and stone, these engineers chisels and punches are made of chrome vanadium steel for prolonged use on metal. The head is separately hardened to avoid excessive 'mushrooming', although this is a necessary feature to avoid chipping.
