

Norman is a real person and is our expert head of Quality Assurance. Norman appears here to bring to your attention features, technical or quality issues.

More importantly the reasons why, on occasions, it's worth paying a little more for a product that may look similar to a cheaper alternative but is much better.

norman says

These soldering irons and tips will work with both leaded or lead-free solders. However, please be aware that due to the chemical composition of lead-free solder the tips of soldering irons wear faster when used consistently with lead-free solder.
