

MICRO BUTANE HEAT GUN

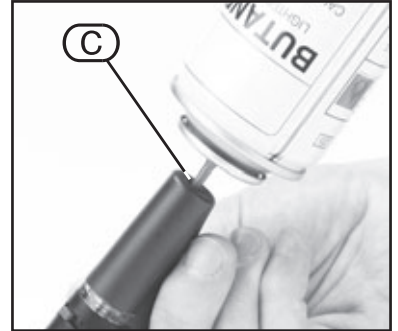

78775 - GT9 INSTRUCTIONS FOR USE

INSTRUCTIONS FOR USE:

Please read and understand the warnings & instructions before use.

Refuelling:

Ensure the gas on/off switch (A) is in the "OFF" position before filling. Turn the unit upside down and firmly push the butane can into the filling valve (C). The tank will take only a few seconds to fill. Please allow a few minutes after filling for the gas to stabilise. **WARNING** - allow gas to disperse **BEFORE** attempting to light torch. **NEVER** attempt to light torch whilst refilling.

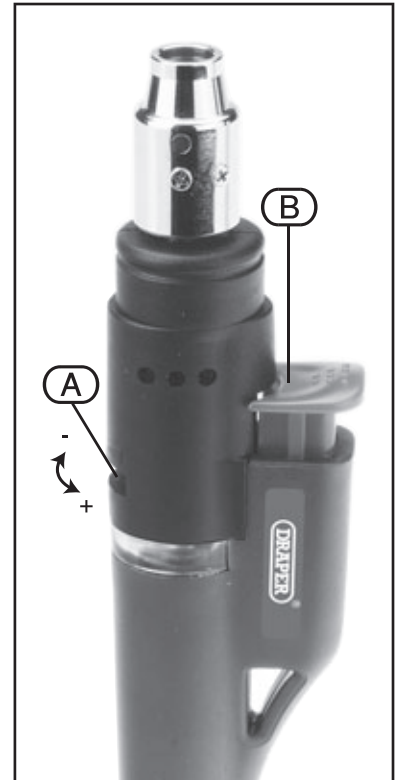

Ignition:

Turn on the fuel by moving the control lever (A) to the right. Ignite by pressing the ignition button (B) repeatedly until lit. Wait a few seconds for the gauze to glow.

Adjust the intensity of the flame on control lever (A). Slide control lever (A) all the way left to turn off the torch.

While the gauze is glowing hot the torch can be re-ignited with just control lever (A).
