

 Dimplex[®]

Electric Fires Collection

A man and a woman are sitting on a light-colored sofa, holding dark blue mugs. They are looking towards a fireplace on the left. The fireplace has a white mantel and a black surround. Inside the fireplace, a Dimplex electric fire is burning, showing a realistic flame and log effect. The room is dimly lit, suggesting a cozy evening.

Dimplex[®]

Imagine the difference

Transform your home with a Dimplex electric fire. Settle back and discover the Dimplex difference. Snuggle into your favourite armchair in a haven of warmth and cosiness. Treat the whole family to the benefits of a real fire but with none of its fuss and mess. Marvel how the latest flame technology can make it easily mistaken for the real thing yet it's so easy to install. Then unwind and relax in the knowledge that we've been making fires for almost 70 years. Dimplex fires are 100% efficient at point of use and most have a flame only setting, so no heat is wasted. They also have the added reassurance of BEAB approval* because we want you to enjoy the best and safest fire you can.

And the best place to start is right here.

*Approved or awaiting approval at time of printing

Discover The difference

Whatever your style and tastes, there's a Dimplex fire to meet your dreams and match your budget. While some feature the latest HDTV technology to create dancing flames and audible crackling logs, others deliver a 3D illusion of smoke and flame. But whichever you choose, it will be the warm and comforting focal point you'd always hoped for.

Opti-myst fires

A stunning range surpassing all expectations for realism in an electric fire.

8

Optiflame fires

A range of contemporary and traditional fires using our original and the world's best-selling electric flame effect.

25

Opti-V fires

A virtual fireplace experience like no other. A perfect blend of magic and realism.

59

Surrounds

Three surrounds ready for use with Dimplex electric inset fires.

63

Radiant fires

A collection of traditional radiant bar fires.

64

Accessories/Specifications

A range of accessories and detailed specifications for our fires.

65

Reassuringly Dimplex

We appreciate that choosing a new fire for your home can be an important decision, which is why you want to be able to see a variety of fires and actually touch, try and see the realism of the flame effect for yourself.

To give you every confidence that you're buying the right fire, we've created a network of Dimplex retailers around the country, each with a range of fires on display. They'll be happy to guide you through all the different options available as well as demonstrating a selection of fires in operation in their showrooms.

Our retailers are your guarantee of the expert advice and individual customer service you can expect from Dimplex.

Dimplex Centres have a minimum of **four** fires on display including at least **one** from our Opti-myst® range.

Dimplex CentrePlus retailers have a minimum of **seven** fires on display including at least **three** from our Opti-myst® range.

3-Year Warranty

Wherever you see this logo in this brochure, it means that when you buy the fire featured from a Dimplex Centre or CentrePlus retailer, you are entitled to a completely-free additional two-year warranty in addition to the statutory one year warranty. To take advantage of this, simply complete the form given to you by your retailer or register online at www.dimplex.co.uk/warranty. Product must be installed in accordance with manufacturer's instructions. For full terms and conditions visit www.dimplex.co.uk/terms-and-conditions.

Deceptively Real

The ultrasonic technology behind Opti-myst® presents the heart-warming illusion of a real fire at the flick of a switch. Mesmerised by the light mirrored in its ultra-fine water mist as it rises from the coals or logs, your eyes will delight in what they contentedly accept as authentic flames and smoke. It's this astonishing three-dimensional deception that helped create the world's most realistic electric fire range.

The world's most popular electric flame effect

Optiflame® is the original Dimplex electric fire that revolutionised the market when first launched in 1988. Endlessly refined over the years to become the world's most popular electric flame effect, you can experience its realistic glow year round simply by switching on the 'flames' without the heating. So you can enjoy their comforting cosiness on mild but gloomy spring mornings or on dark autumn evenings.

See a video of the flame effect for yourself at dimplex.co.uk/optiflame

The most unbelievable electric flame effect yet

Opti-V® is unlike any other electric flame effect fire. Its flickering flames dart and dance amongst glowing logs that crackle and sparkle yet never burn away. Discreet LED lighting glimmers deep in each log adding to their extraordinarily realistic appearance. Driven by the high definition technology usually employed in the latest TVs, you're actually basking in the glow of a real live fire created in your fireplace by the magic of virtual reality.

See a video of the flame effect for yourself at dimplex.co.uk/optiv

PGF20

PGF10 and PGF20

Fully built-in electric wall fire with Opti-V® flame effect.

- Flame effect is shown via 22 inch, full colour, High Definition LCD television screens
- The screen fuel bed and lighting is run by low energy LEDs
- Remote control with sound effect volume control
- PGF10 is available with optional graphite effect frame
- Viewing aperture:
PGF10 - H240 x W690mm
PGF20 - H240 x W1310mm
- This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers

See pages 65 to 67 for product dimensions
These fires do not include a heater

*Terms & conditions apply, please see page 7 for details

PGF10

Model no. PGF10, PGF20

Sunningdale

Cast-iron style stove with Opti-V® 3D effect electric fire.

- Flame effect is shown via HD TV screen
- LED fuel bed and lighting
- 2kW fan heater with a choice of 2 heat settings
- Electronic controls
- Crackling logs sound effects with adjustable volume
- Thermostatic heat control

CLL-OV - Cellini

Model no. CLL-OV - Cellini, VLT-OV - Volterra

Surrounds

Fully assembled MDF surround, back panel and hearth, purpose designed for use with Dimplex electric fires. No structural alterations needed as surrounds are freestanding – all you need is a flat wall and a power point for the fire.

For use with electric fires only.

Holwell

- Surround finished in maple effect with textured black back panel and hearth
- Compatible with all of the current Dimplex 16"/18" inset fires

Model no. GDS1A

Rockbourne

- Natural stone effect surround
- Compatible with all of the current Dimplex 16"/18" inset fires

Model no. GDS3

Ashmore

- Surround finished in mahogany effect with textured cream back panel and hearth
- Compatible with all of the current Dimplex 16"/18" inset fires

Model no. GDS1

Radiant bar fires

Lymington

- A free-standing fire with unique Optiflame® coal effect
- 2kW radiant heat, plus 0.5kW convected heat
- Flame effect can be used independently of heat source
- 'Economiser' control
- Finished in matt black with brass effect trim

Model no. LYM28E

Theme

- Attractive cherry finish surround
- Flickering flame coal effect
- 2kW of radiant heat with 'Economiser' control
- Effect can be used independently of heat source
- 0.8kW convector with variable thermostat for background warmth

Model no. 316CHE

Yeominster

- Traditional freestanding fire
- Flickering log effect
- 2kW radiant heat with 1kW/2kW heat selection
- Effect can be used independently of heat source

Model no. YEO20

Optima

- Freestanding or wall-mounted
- Attractive cherry finish surround
- 2kW of radiant heat with 'Economiser' control
- Effect can be used independently of heat source
- Flickering flame coal effect
- Choice of heat settings

Model no. 314CHE

Lyndhurst

- Stylish black canopy
- Flickering flame log effect
- 2kW of radiant heat with 'Economiser' control
- Effect can be used independently of heat source
- 0.5kW of thermostatically controlled convected heat
- Choice of heat settings

After Sales Service

If you require after sales service please visit www.dimplex.co.uk/support.

CE Mark

Our products carry the CE mark complying with European safety standards and the European Standard for electro magnetic compatibility.

British Electrotechnical Approvals Board BEAB Approved

The mark of the British Electrotechnical Approvals Board signifies that the appliance bearing it has been produced to the stringent safety requirements for domestic electrical appliances as laid down in BSEN60335.

All Dimplex electric fires are approved by BEAB or awaiting approval at time of printing.

Specifications

Dimplex policy is one of continuous improvement; the Company therefore reserves the right to alter specifications without notice. Although every care has been taken in the reproduction of product finishes in this brochure, the colour photographs and the flame effects should be taken only as a guide. The information contained in this brochure is correct at the time of printing. You are advised to consult your dealer before purchasing. For a list of your local retailers please visit www.dimplex.co.uk

The Dimplex Range

Dimplex offers the widest range of electric space and water heating products in the world - nearly 700 - to meet almost any heating need. In addition to this publication, we have a wide range of brochures for both domestic and commercial applications. Please visit our website for more information.

Dimplex Website

Our website is full of information which may be useful to you including:

- Details of your local Dimplex Centre and CentrePlus retailers - including where you can see a particular fire on display
- Videos of the Opti-myst and Optiflame effects
- Installation and operating instructions
- How to buy spare parts
