# manure drag & forks

## Specification, Features & Benefits

manure drag PY

Product Code: 1636DE

Originally designed for raking manure into a pile. Also suitable for removing debris from ditches, rivers and ponds

- Epoxy coated square tines
- Tubular steel shaft

manure drag PT

Product Code: 1636AY

Originally designed for raking manure into a pile. Also suitable for removing debris from ditches, rivers and ponds

- Epoxy coated square tines
- Tubular steel shaft

manure drag LK

Product Code: 1609CS

Originally designed for raking manure into a pile. Also suitable for removing debris from ditches, rivers and ponds

- Epoxy coated square tines
- Solid socket with weatherproofed hardwood shaft

manure fork LK

Product Code: 1636CU

Lightweight, solid socket fork for general clearing tasks

- Epoxy coated oval tines
- Solid socket
- Tubular steel shaft
- Designed for maximum strength and durability

# hay forks & rakes

Specification, Features & Benefits

hay fork LK

Product Code: 1600HS

A traditional tool for moving hay and straw bales

- Epoxy coated oval prongs
- Solid socket
- Weatherproofed hardwood shaft
- Round shoulders for ease of use

hay fork T

Product Code: 1600FD

A traditional tool for moving hay and straw bales

- Epoxy coated oval prongs
- Solid socket
- Weatherproofed hardwood shaft
- Round shoulders for ease of use

hay fork LK

Product Code: 1602BA

A traditional tool for moving hay and straw bales

- Epoxy coated oval prongs
- Solid socket
- Weatherproofed hardwood shaft
- Round shoulders for ease of use

alloy hay rake

Product Code: 8206AH

Ideal for collecting hay, straw and grass cuttings. Also useful for leveling surfaces and sand bunkers on golf courses

- Lightweight for ease of use
- Extra long shafts for greater reach

wooden hay rake

Product Code: 8207WH

Ideal for collecting hay, straw and grass cuttings. Also useful for leveling surfaces and sand bunkers on golf courses

- Lightweight for ease of use
- Extra long shafts for greater reach

# slashers & brushing hooks

Specification, Features & Benefits

heavy duty double

Product Code: 4604BY

Ideal for trimming, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

heavy duty single

Product Code: 4601BT

Ideal for trimming, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

staff brushing hook

Product Code: 4655BM

Ideal for trimming, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

irish slasher

Product Code: 4605BU

Ideal for trimming, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

heavy brushing slasher

Product Code: 4607CE

Ideal for trimming, trimming and clearing brush and thickets. The shallow curved blade of the slasher makes it useful for heavy duty cutting such as hedges and thicker materials

- Epoxy coated heads for resistance to rust
- Solid socket forged
- Weatherproofed hickory handle

# other hooks and misc

## Specification, Features & Benefits

### stafford bill hook

Product Code: 4880AP

Used for hedgerow maintenance and hedge laying

- Epoxy coated heads for rust resistance
- Solid socket
- Weatherproofed handle
- Double edged blade
- Round grip handle

### newton bill hook

Product Code: 480IBZ

Used for hedgerow maintenance and hedge laying

- Epoxy coated heads for rust resistance
- Solid socket
- Weatherproofed handle
- Single edged blade
- Pistol grip handle

### southern counties bill hook

Product Code: 4516AZ

Used for hedgerow maintenance and hedge laying

- Epoxy coated heads for rust resistance
- Solid socket
- Weatherproofed handle
- Single edged blade
- Pistol grip handle

### fussel bristol reap

Product Code: 4700BU

Used to cut through rough grass and weeds

- Forged, flat blade with through tang
- Hardwood handle
- Round grip handle

### “john riley” irish hook

Product Code: 4717BT

Used to cut through rough grass and weeds

- Forged, flat blade with through tang
- Hardwood handle
- Round grip handle

### grain shovel

Product Code: 2750AG

Mainly used by farmers or the food industry for shovelling loose materials

- Open socket
- Square mouth
- Lightweight
- Rust proof
- Can be sterilised

### rabbiting spade

Product Code: 1047MY

Ideal for digging fence post holes and planting sapling trees

- Epoxy coated head for reduced soil adhesion
- Weatherproofed hardwood shaft
- Heavy duty metal hit
