

LOCKS YOU CAN TRUST

Product Catalogue 2017

LOCKS YOU CAN TRUST

Kasp locks have been designed and manufactured to the highest standards. Precision engineered from premium grade materials, ensuring exceptional strength and outstanding reliability, Kasp locks are reassuringly renowned for being locks you can trust.

Confident in our product quality, we offer a full 10 year guarantee against defects in manufacture and materials on mechanical security products, and a 12 month guarantee on electronic security products.

LOCKS YOU CAN TRUST

Weather Rating

Lock Off

Combination Padlocks 265-267

Padlocks 268-287

Hasp & Staples 288-290

Chains & Two Wheel 290-293

Lockouts 293-297

Wireless Alarms 298-299

Lock Lubricant 299

Key Blanks 300

Cut Keys 301

Engraving 301

A close-up photograph of a metal component, likely a valve or actuator stem, featuring a circular hole. The component is made of a light-colored metal, possibly stainless steel. The text is embossed on the surface. The background is dark and out of focus.

HARDENED

LOCKS YOU CAN TRUST

Progressive and eye-catching display units have been created to maximise impact in-store, helping to generate incremental sales and encouraging impulse purchases.

The Kasp classification system assists in the selection of the appropriate product. The scale runs from 1 to 15 the higher the number, the higher the security rating. To further aid selection, ratings have been grouped into 3 general levels of security – low, medium, and high.

HIGH SECURITY

MEDIUM SECURITY

LOW SECURITY

COMBINATION PADLOCKS

Ideal for a wide range of applications, the Kasp 105 series offers the convenience of a keyless resettable combination mechanism allowing the code to be set to a memorable number of choice.

Available in 6 colours, luggage, bags and lockers can be easily identified and personalised.

- Anodised aluminium body
- Steel shackle
- 3 nickel plated dials
- Resettable combination
- 6 colour choices

115

The Kasp 115 series combines the security of a hardened steel shackle and the convenience of a keyless combination mechanism. Increased security over traditional style combination padlocks due to the number possible combinations.

- Hardened steel shackle
- 3 digit code
- 40 digit mechanism - 60,000 possible combinations

Dial Combination Padlock

Item Number					
K11548D	2	48mm	7mm	18mm	6

117

Featuring a hardened steel shackle and a tough lock body, the robust Kasp 117 series protects against brutal attack methods whilst offering the convenience of a resettable keyless locking mechanism. The double bolted hi-tech locking mechanism features a special anti manipulation system to protect the lock from being opened through intelligent manipulation techniques.

With its weather resistant lock body and rust free internal components, the Kasp 117 series is ideal for outdoor use.

- Hardened steel shackle
- Double bolted locking mechanism
- Anti manipulation locking system
- 4 Dial resettable combination
- Rust free internal components

Heavy Duty Combination Padlock

Item Number					
K11750D	6	50mm	8mm	26mm	6

119

With its heavy weight hardened steel lock body, super tough molybdenum steel shackle and anti manipulation locking mechanism, Kasp 119 series padlocks are amongst the most secure combination padlocks available today. The hi-tech double bolted locking mechanism features a special anti manipulation system to protect the lock from being opened through intelligent manipulation techniques.

The weather resistant electro-plated lock body with rust free internal components and dual drainage system ensures that the Kasp 119 series is ideal for outdoor use.

- Molybdenum steel shackle
- Hardened steel electro-plated lock body
- Double bolted locking mechanism
- Anti manipulation locking system
- 4 dial resettable combination
- Rust free internal components & dual drainage system

Kasp 124 series padlocks, with lock body and shackle constructed from solid brass, offer corrosion resistance and anti-spark properties. The coloured vinyl jacket not only protects precious paintwork from accidental damage, but also makes the Kasp 124 series the ideal padlock for electrical lock-off applications when combined with the Kasp 200 series lock-off hasp.

- Anti spark brass shackle
- Double bolted locking mechanism
- Solid brass body
- Anti-pick mushroom pins
- Paracentric keyway
- Plastic coated body
- 2 keys

KASP SERVICE CENTRE

Our Service Centre provides an array of services from simple key cutting to more complex master keyed systems. Ordering is quick and easy, with an average delivery time of just 2-3 days.

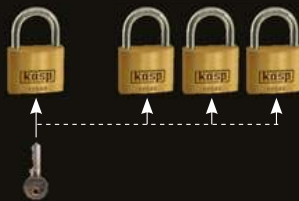

Express key cutting

Our express key cutting service allows additional keys to be cut for all Kasp padlocks.

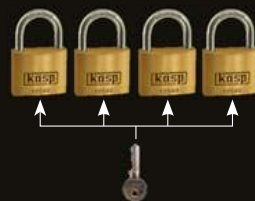

Padlock cloning

Our Service Centre can custom-build additional padlocks to operate with an existing Kasp key.

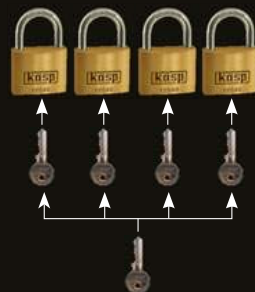

Keyed alike suites

A wide range of keyed alike padlocks are held in stock, however, for increased security, we can arrange unique keyed alike suites.

Master keyed systems

Tailor-made master keyed suites can be created to meet individual requirements.

Padlock & key engraving

User's names or identification numbers can be engraved on both padlocks and keys.

125

Top quality in design and manufacture with precision mechanisms, Kasp 125 series padlocks feature a solid brass body, paracentric keyway and anti-pick cylinder. This versatile, best selling range is available in a wide range of size, shackle, keying and pack options.

The Kasp 125 series is also available as a service padlock allowing padlocks to be manufactured to specific keying requirements.

- Hardened steel shackle (20mm and above, 15mm Brass shackle)
- Double bolted locking mechanism (30mm and above)
- Solid brass body
- Anti-pick mushroom pins (30mm and above)
- Paracentric keyway
- 2 keys

Item Number	
K140CBOX	1

Manufactured from a solid block of marine grade stainless steel, the robust Kasp 150 series is capable of meeting the stringent demands of high security industrial applications whilst offering the reassurance of an entirely corrosion resistant construction.

The 5-pin anti-pick cylinder is designed to withstand intelligent picking and manipulation methods, whilst the 9mm stainless steel shackle is secured in the locked position by 2 ball bearings, universally accepted as one of the most secure locking mechanisms available.

- Stainless steel body & shackle
- Closed shackle
- Double ball bearing locking mechanism
- 5 pin cylinder with anti-pick mushroom pins
- Rust free internal components & drainage system
- Paracentric keyway
- 2 keys

Stainless Steel Padlocks

Item Number					
K15050D	11	50mm	9mm	20mm	6

160

With a robust stainless steel body and exceptional design, the Kasp 160 series combines corrosion resistance and high security. In the locked position the distinctive shape protects the shackle from saw and cropping attack whilst the anti-drill (70mm only), anti-pick cylinder provides excellent protection to cylinder attack.

- Hardened steel shackle
- Double bolted locking mechanism
- Stainless steel body
- 4 pin cylinder with anti-pick mushroom pins
- Paracentric keyway
- 70mm - anti drill, anti-pick cylinder
- 2 keys

170

The Kasp 170 series is ideal where a higher level of security is required. Originally designed for securing commercial shutters and grilles, this solid brass bodied lock offers excellent protection against cropping attack whilst the rotating hardened steel shackle make hacksaw attack virtually impossible.

- Rotating hardened steel shackle
- Solid brass body
- 5 pin cylinder with anti-pick mushroom pins
- Paracentric keyway
- 2 keys

K17090D	11	90mm	12mm	18mm	6

175

With its ingenious design and reassuringly heavyweight construction, the Kasp 175 series offers a high level of resistance to virtually all conventional forms of attack.

Its rotating hardened steel shackle makes hacksaw attack virtually impossible, and together with a ball bearing locking mechanism, hardened steel armoured jacket, anti-pick cylinder and drill resistant keyway, the 175 series is extremely tough under attack.

- Hardened steel shackle
- Double ball bearing locking mechanism
- Solid brass body encased in a steel jacket
- 5 pin cylinder with anti-pick mushroom pins
- Paracentric keyway
- Drill resistant keyway
- 2 keys

180

Manufactured from a solid block of hardened steel, the tough and durable Kasp 180 series has been specifically designed to meet the stringent demands of industrial applications, but is equally suited for high security domestic requirements.

Featuring a 12mm hardened steel shackle, double ball bearing locking mechanism and a rekeyable 5 pin anti-pick cylinder, the Kasp 180 series offers a high level of protection against brutal and intelligent methods of attack. The fully chrome plated lock body and shackle ensures that the Kasp 180 series is ideal for outdoor use.

- Hardened steel shackle
- Double ball bearing locking mechanism
- Chrome plated hardened steel body
- 5 pin cylinder with anti-pick mushroom pins
- Paracentric keyway
- 2 keys

Renowned for their extreme strength, Kasp 190 series padlocks have been designed and manufactured in accordance with the stringent internationally recognised Central European Norm specifications. The close shackle version conforms to BS EN 12320 : Class 6, the highest grade within the Central European Norm security standard, ensuring it is amongst the most secure padlock available today. Precision crafted from a solid block of high grade hardened steel, weighing over 1.5kgs (3.3lbs), the Kasp 190 Series is a true heavy weight that will resist the most brutal of attacks.

The rekeyable, drill resistant 6-pin cylinder featuring anti-pick pins is designed to resist intelligent picking and manipulation methods, whilst the 14mm hardened boron steel shackle is secured in the locked position by 2 ball bearings, universally accepted as one of the most secure locking mechanisms available.

- Conforms to BS EN 12320 : Class 6
- Hardened boron alloy steel shackle
- Double ball bearing locking mechanism
- Pearl nickel plated hardened steel body
- 6 pin anti drill cylinder with anti-pick mushroom pins
- Paracentric keyway
- Drill resistant keyway
- 2 keys

HASP & STAPLES

500

The design of the Kasp 500 Series Van Lock makes it almost impervious to conventional forms of attack. Specifically designed to meet the stringent demands of industrial vehicle applications, the Kasp 500 Series will resist the most savage of attacks. The high security anti-pick, 6-pin locking mechanism will resist intelligent picking and manipulation methods, whilst the walls of the hasp protect the heavyweight hardened steel lock offering virtually no points of effective attack.

Fits virtually all vans and trucks with sliding or hinged doors as well as trailers and containers. Also suitable as a high security locking device for garages, lock ups, gates, etc. Supplied complete with 6 x coach bolts.

Padlock:

- Chrome plated hardened steel body
- Shrouded steel shackle
- 6 Pin cylinder
- Corrosion resistant mechanism
- 2 keys

Hasp:

- Zinc plated heavy duty steel construction
- Supplied complete fixing bolts
- Integral storage bracket for secure storage of the lock when open

Van Lock & Hasp

Item Number				
K50073A	10	216mm	114mm	1

Van Lock & Hasp - Spare Padlock

Replacement steel padlock for the Van Lock & Hasp. Also ideal for other high security applications such as gates, garages, shutters etc.

Item Number				
K50073LD	10	216mm	114mm	1

Van Lock & Hasp - Counterbox

Counter box includes three van lock and hasp sets and three padlocks.

Item Number				
K50073ACB	10	216mm	114mm	1

210

A traditional style hasp and staple, the Kasp 210 series offers a basic level of security for general applications.

- Hardened staple
- Chrome plated finish
- Concealed fixings
- Fixing screws included

Lightweight yet robust in design the Kasp 710 series cable lock features a 10mm diameter high tensile multi-strand steel cable and an anti pick 5 pin dimple key cylinder.

The convenient mounting bracket with quick release mechanism allows the lock to be fixed to the bike frame or seat post for easy transportation.

The reversible dimple key and self locking mechanism ensures ease of use even in low light conditions.

- High tensile multi-strand steel cable
- Anti pick 5 pin locking mechanism & dimple key
- Reversible key & self locking mechanism
- Protective cylinder weather guard
- Versatile quick release mounting bracket
- Supplied with 2 x dimple keys
- Quick release mounting bracket

Cable Bike Lock

Item Number				
K710L80	4	10mm	800mm	3

730

Featuring a 12mm diameter high tensile multi-strand steel cable and an anti pick 5 pin dimple key cylinder, the Kasp 730 series offers effective and reliable cable lock protection. The generous 1.8m length recoilable cable ensures that both wheels and frame can be secured to a solid object, whilst the mounting bracket with quick release mechanism allows the lock to be fixed to the bike frame or seat post for easy transportation.

The reversible dimple key and self locking mechanism ensures ease of use even in low light conditions.

- High tensile multi-strand steel cable
- Anti pick 5 pin locking mechanism & dimple key
- Reversible key & self locking mechanism
- Protective cylinder weather guard
- Quick release mounting bracket
- 2 keys

Coiled Cable Bike Lock

Item Number				
K730L180	6	12mm	1800mm	3

750

The feature packed 750 series is equipped with everything you would expect from a combination cable lock, and more. The 12mm diameter high tensile multi-strand cable and resettable 4 dial combination mechanism provides convenient and effective cable lock security whilst the key override feature offers the reassurance of an alternative method of access should the combination code be forgotten.

To ensure ease of use even in the dark the Kasp 750 series features an integrated dial illumination system that lights up the combination dials at the press of a button. The generous 1.8m length recoilable cable ensures that both wheels and frame can be secured to a solid object, whilst the mounting bracket with quick release mechanism allows the lock to be fixed to the bike frame or seat post for easy transportation.

- High tensile multi-strand steel cable
- Resettable 4 dial combination mechanism with key override
- Dial illumination system
- Versatile quick release mounting bracket
- 2 keys

Illuminated Dial Coiled Bike Lock

Item Number				
K750L180	5	12mm	1800mm	3

790

Tough and robust to resist brutal attack methods, the Kasp 790 series U Shackle Bike Lock features a steel lock body and a 12mm steel shackle specially hardened to protect against saw and bolt cutter attack. The shackle is secured by a double bolted locking mechanism to resist pull and torsion attack whilst the anti pick 5 pin dimple key cylinder defends against picking and manipulation attempts.

Supplied with a quick release mounting bracket to allow the lock to be fixed to the bike frame or seat post for easy transportation.

- Hardened steel shackle
- Double bolted 13mm
- Tough steel lock body
- Anti pick 5 pin locking mechanism & dimple key
- Reversible key
- Protective cylinder weather guard
- Quick release mounting bracket

K12025LO	2	25mm	4mm	15mm	6

SAFETY & SECURITY

Kasp security products are designed and manufactured to the highest standards, precision engineered for exceptional strength and reliability and are renowned for being locks you can trust.

Safety is paramount and the selection of quality tools and equipment is vital. Kasp offers the total package for Electrical Safety & Equipment Security from the one trusted brand.

LOCKOUT FROM KASP

Introducing our concise Lockout range, all items are strikingly packaged for easy identification, choice and purchase. MCB Lockout, our unique Essential Lockout Kit, hasps and specific padlocks, all manufactured to strict standards and offered at very competitive prices.

WHAT IS LOCKOUT/TAGOUT?

Lockout/Tagout is an essential safety procedure to ensure that an energy supply is 'locked off' while maintenance is being carried out. Every year there are thousands of work accidents which occur while repairing or servicing machinery, most of which are due to energy sources that have not been isolated. There is much legislation covering this issue including The Electricity at Work Regulations of 1989, UK the Provision of Work Equipment Regulations – Regulation 19 and EU Guidelines 89/655, the result is that every company has a legal requirement to safeguard workers from a sudden release of energy.

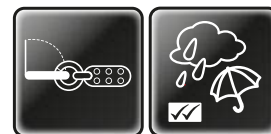

Simply, the procedure is to physically 'lockout' a source of energy using padlocks and other physical means, Tagout refers to the marking of important lockout points with information or warning signs.

124

Kasp 124 series padlocks, with lock body and shackle constructed from solid brass, offer corrosion resistance and anti-spark properties. The coloured vinyl jacket not only protects precious paintwork from accidental damage, but also makes the Kasp 124 series the ideal padlock for electrical lock-off applications when combined with the Kasp 200 series lock-off hasp.

- Anti spark brass shackle
- Double bolted locking mechanism
- Solid brass body
- Anti-pick mushroom pins
- Paracentric keyway
- Plastic coated body
- 2 keys

WIRELESS ALARMS

610

Portable Motion Sensor Alarm

This versatile alarm is a convenient and effective security device. The motion sensor detects the slightest movement and attracts immediate attention through the ultra loud alarm. It can be fastened to vulnerable entry points to premises, or used free standing in holdalls or vehicles to protect precious belongings.

Item Number

EMS6101

6

Wireless 3 in 1 Alarm & Light

The 3 in 1 Alarm and Light is a versatile device featuring an emergency light. The PIR (Passive Infra Red) motion sensor detects the movement of an intruder and attracts immediate attention through the ultra loud 130 dB alarm. Alternatively, at the switch of a button, the device can be used as an emergency light operated manually or activated via the PIR motion sensor.

Item Number

EMS6102

6

Wireless Garage & Shed Alarm

The Garage & Shed Alarm is a convenient and effective PIR (Passive Infra Red) motion sensor alarm that offers peace of mind through round the clock protection. The alarm unit sounds in your home when the PIR unit detects an intruder in your shed or garage.

Item Number

EMS6103

6

Wireless PIR Motion Sensor Alarm with Keypad

The PIR (Passive Infra Red) Motion Sensor Alarm can be wall mounted or set free-standing, and boasts an ultra-loud 130 dB alarm. The device detects the movement of an intruder and attracts immediate attention through the ultra loud alarm. It is activated and de-activated by entering a security code via the keypad which is resettable for added convenience.
