BEARING GUIDED REBATE SET

- Popular rebate sets which include different size bearings for a choice of rebates.
- Easy to set-up and accurate depth of cut.
- Ideal for rebating straight and shaped workpieces.
- **Ref. 46/39L** has a 60mm shank length to give access to deep rebates.
- **Ref. 46/44** is ideal for delicate applications such as musical instrument production, when a small rebate is required for insertion of purfling.
- ⚠ When using bearing **Ref. B95A**, make two passes if a full depth of cut is required by using a larger bearing first.
