

STC SINGLE 'O' FLUTE SPIRAL

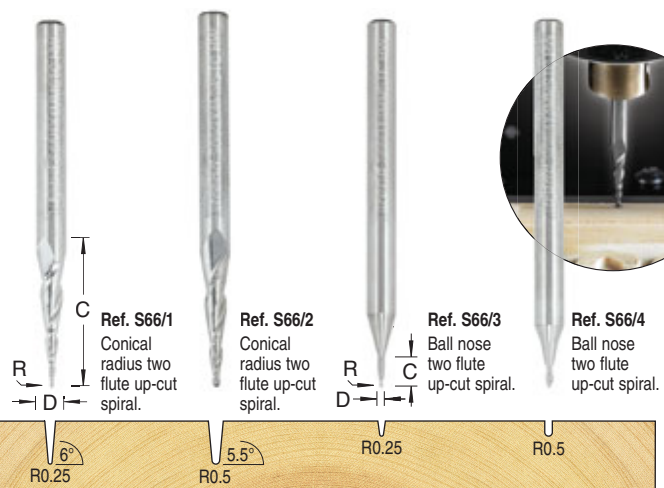

- Special high grade 'O' flute ground carbide for fast and smooth cuts in woods and plastics.
- Super high polished cutting edge with unique mirror finish, resulting in clean cuts, less chance of chip re-welding, effortless chip removal, a superior finish and a longer tool life.
- For use in routers and CNC routers.
- Up-cut spiral can be used to plunge cut.
- Designed for plastic, wood, foam board, acrylic, nylon, PVC, PVC trim boards, polycarbonate, solid surface, HDPE, ABS, UHMW, HIPS, PET, Polystyrene, Polypropylene (PP), Acetal and mechanical/engineered plastics.

STC MINI ENGRAVER FOR CNC MINI

- Solid Carbide for long life with 4mm shank.
- Available to suit various material including wood, acrylic and ABS plastic.

STC MINI UP-CUT & DOWN-CUT SPIRAL

- 3mm diameter shank, two fluted spiral cutters for CNC routers.
- For specialised applications including sign making & PCB machining.
- Up-cut prevents burning in plunge cuts. Down-cut (LH) prevents feathered edges.
- Can also be used on wood and plastic.

STC PIN GUIDED TWO FLUTE SPIRAL

- Solid Carbide two flute solid brass pin guided spiral for trimming acrylic, wood and MDF.
- Small pin diameter for access into tight corners.
- Ideal for cleaning up edges for sign making.
- Up-cut and down-cut versions to suit application.
- Down-cut for better clamping when machining small workpieces and improved finish on the tops of the board.

TCT PIN GUIDED CHAMFER / BEVEL

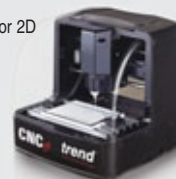

- Ideal for fast chamfering.
- For chamfering/bevelling edges of plastic material.
- Small pin is used to self guide the tool and allows access into tight corners.
