

SURVEY LINE - ALL COLOURS

Page: 1

Compilation date: 23/01/15

Revision No: 5

## Section 1: Identification of the substance/mixture and of the company/undertaking

## 1.1. Product identifier

## Product name: SURVEY LINE - ALL COLOURS

## 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of substance / mixture: PC9a: Coatings and paints, thinners, paint removers.

## 1.3. Details of the supplier of the safety data sheet

	-
Email:	sds@everbuild.co.uk
Fax:	0044 113 240 0024
Tel:	0044 113 240 3456
	ENGLAND
	LS9OSW
	WEST YORKSHIRE
	LEEDS
	CROSS GREEN INDUSTRIAL ESTATE
	SITE 41, KNOWSTHORPE WAY
Company name:	EVERBUILD BUILDING PRODUCTS LTD

## 1.4. Emergency telephone number

Emergency tel: 0044 113 240 3456 (office hours only)

#### Section 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Classification under CHIP:	F+: R12; Xi: R36; -: R52/53; -: R66; -: R67
Classification under CLP:	STOT SE 3: H336; Aquatic Chronic 3: H412; Eye Irrit. 2: H319; Flam. Aerosol 1: H222; -:
	H229
Most important adverse effects:	Extremely flammable. Irritating to eyes. Harmful to aquatic organisms, may cause long-
	term adverse effects in the aquatic environment. Repeated exposure may cause skin
	dryness or cracking. Vapours may cause drowsiness and dizziness.

#### 2.2. Label elements

Label elements under CLP:	
Hazard statements:	H222: Extremely flammable aerosol.
	H229: Pressurised container: May burst if heated
	H319: Causes serious eye irritation.
	H336: May cause drowsiness or dizziness.
	H412: Harmful to aquatic life with long lasting effects.
Signal words:	Danger

#### SURVEY LINE - ALL COLOURS

Hazard pictograms: GHS02: Flame

GHS07: Exclamation mark

## Precautionary statements: P211: Do not spray on an open flame or other ignition source. P251: Pressurized container: Do not pierce or burn, even after use. P280: Wear protective gloves/protective clothing/eye protection/face protection. P304+340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P312: Call a POISON CENTER or doctor if you feel unwell. P210: Keep away from heat/sparks/open flames/hot surfaces. - No smoking. P261: Avoid breathing vapours/spray. P264: Wash contaminated skin thoroughly after handling. P271: Use only outdoors or in a well-ventilated area. P273: Avoid release to the environment. P337+313: If eye irritation persists: Get medical attention. P403+233: Store in a well-ventilated place. Keep container tightly closed. P405: Store locked up. P410+412: Protect from sunlight. Do not expose to temperatures exceeding 50 °C. P501: Dispose of contents/container to hazardous waste point. Label elements under CHIP: Hazard symbols: Extremely flammable. Irritant. Risk phrases: R12: Extremely flammable. R36: Irritating to eyes.

Precautionary phrases: Pressurized container: protect from sunlight and do not expose to temperatures

R67: Vapours may cause drowsiness and dizziness.

aquatic environment.

Safety phrases: S2: Keep out of the reach of children.

S29: Do not empty into drains.

S51: Use only in well-ventilated areas.

exceeding 50°C. Do not pierce or burn, even after use.

R66: Repeated exposure may cause skin dryness or cracking.

R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the

Page: 2

#### SURVEY LINE - ALL COLOURS

Page: 3

Do not spray on a naked flame or any incandescent material. Keep away from sources

of ignition - No smoking. Keep out of the reach of children.

#### 2.3. Other hazards

**Other hazards:** In use, may form flammable / explosive vapour-air mixture.

**PBT:** This product is not identified as a PBT/vPvB substance.

#### Section 3: Composition/information on ingredients

3.2. Mixtures

#### Hazardous ingredients:

#### ACETONE

#### Section 4: First aid measures

#### 4.1. Description of first aid measures

Skin contact: Remove all contaminated clothes and footwear immediately unless stuck to skin. Wash

immediately with plenty of soap and water. For persistant irritation seek medical advice.

H411

- **Eye contact:** Bathe the eye with running water for 15 minutes. Make sure contact lenses are removed before rinsing. Consult a doctor.
  - Ingestion: Wash out mouth with water. Do not induce vomiting. Consult a doctor.

#### SURVEY LINE - ALL COLOURS

Page: 4

Inhalation: Remove casualty from exposure ensuring one's own safety whilst doing so. Consult a

doctor.

#### 4.2. Most important symptoms and effects, both acute and delayed

Skin contact: There may be irritation and redness at the site of contact.

Eye contact: There may be irritation and redness. The eyes may water profusely.

Ingestion: There may be soreness and redness of the mouth and throat.

**Inhalation:** There may be irritation of the throat with a feeling of tightness in the chest. Exposure may

cause coughing or wheezing. Drowsiness or mental confusion may occur.

#### 4.3. Indication of any immediate medical attention and special treatment needed

#### Section 5: Fire-fighting measures

#### 5.1. Extinguishing media

**Extinguishing media:** Alcohol resistant foam. Water spray. Carbon dioxide. Dry chemical powder. Use water spray to cool containers. Do not use water jet.

#### 5.2. Special hazards arising from the substance or mixture

Exposure hazards: Highly flammable. In combustion emits toxic fumes. Forms explosive air-vapour mixture. Vapour may travel considerable distance to source of ignition and flash back. Bursting aerosols can be forcibly projected from a fire.

#### 5.3. Advice for fire-fighters

Advice for fire-fighters: Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eves.

## Section 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions:** Refer to section 8 of SDS for personal protection details. If outside do not approach from downwind. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Turn leaking containers leak-side up to prevent the escape of liquid. Eliminate all sources of ignition.

#### 6.2. Environmental precautions

Environmental precautions: Do not discharge into drains or rivers. Contain the spillage using bunding.

#### 6.3. Methods and material for containment and cleaning up

**Clean-up procedures:** Absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Do not use equipment in clean-up procedure which may produce sparks. Refer to section 13 of SDS for suitable method of disposal.

#### SURVEY LINE - ALL COLOURS

Page: 5

# Section 7: Handling and storage

#### 7.1. Precautions for safe handling

6.4. Reference to other sections

Handling requirements: Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area.

Do not handle in a confined space. Avoid the formation or spread of mists in the air.

Smoking is forbidden. Use non-sparking tools.

#### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store in cool, well ventilated area. Keep container tightly closed. Keep away from sources of ignition. Prevent the build up of electrostatic charge in the immediate area. Ensure lighting and electrical equipment are not a source of ignition. Suitable packaging: Must only be kept in original packaging.

7.3. Specific end use(s)

## Section 8: Exposure controls/personal protection

## 8.1. Control parameters

#### Hazardous ingredients:

#### ACETONE

#### Workplace exposure limits:

Workplace exp	osure limits:	Re	espirable dust	
State	8 hour TWA	15 min. STEL	8 hour TWA	15 min. STEL
UK	1210 mg/m3	3620 mg/m3	-	-
BUTANE				
UK	1450 mg/m3	1810 mg/m3	-	-

#### ETHYL METHYL KETONE

UK	600 mg/m3	899 mg/m3	-	-
PROPANE				
UK	1800 mg/m3	7200 mg/m3	-	-
ETHYL ACETATE				
UK	200 ppm	400 ppm	-	-

#### **DNEL/PNEC Values**

DNEL / PNEC No data available.

#### 8.2. Exposure controls

Engineering measures:	Ensure there is sufficient ventilation of the area. Ensure lighting and electrical	
	equipment are not a source of ignition.	
Respiratory protection:	Self-contained breathing apparatus must be available in case of emergency.	
Hand protection:	Protective gloves.	

#### SURVEY LINE - ALL COLOURS

Eye protection: Safety glasses. Ensure eye bath is to hand.

Skin protection: Protective clothing.

#### Section 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

State:	Aerosol
Colour:	Various
Odour:	Characteristic odour
Solubility in water:	Insoluble
Also soluble in:	Most organic solvents.
Boiling point/range°C:	<=35
upper:	9.5
Autoflammability°C:	410-580

Flammability limits %: lower: 1.8 Flash point°C: -40 Relative density: 1.2-1.3

#### 9.2. Other information

Other information: No data available.

## Section 10: Stability and reactivity

## 10.1. Reactivity

Reactivity: Stable under recommended transport or storage conditions.

#### 10.2. Chemical stability

Chemical stability: Stable under normal conditions. Stable at room temperature.

## 10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

Decomposition may occur on exposure to conditions or materials listed below.

#### 10.4. Conditions to avoid

Conditions to avoid: Heat. Hot surfaces. Sources of ignition. Flames.

## 10.5. Incompatible materials

Materials to avoid: Strong oxidising agents. Strong acids. Strong bases.

## **10.6. Hazardous decomposition products**

Haz. decomp. products: In combustion emits toxic fumes.

#### Section 11: Toxicological information

11.1. Information on toxicological effects

#### 12.2. Persistence and degradability

Persistence and degradability: No data available.

Page: 7

#### SURVEY LINE - ALL COLOURS

#### 12.3. Bioaccumulative potential

Bioaccumulative potential: No data available.

## 12.4. Mobility in soil

Mobility: Volatile.

#### 12.5. Results of PBT and vPvB assessment

PBT identification: This product is not identified as a PBT/vPvB substance.

12.6. Other adverse effects

Other adverse effects: Harmful to aquatic organisms.

#### Section 13: Disposal considerations

13.1. Waste treatment methods

Disposal operations:	Transfer to a suitable container and arrange for collection by specialised disposal		
	company. Dispose of according to local or national legislation		
Waste code number:	16 05 04		
Disposal of packaging:	Make sure containers are empty before discarding (explosion risk). Do not pucture or		
	incinerate even when empty. Dispose of waste and residues in accordance with local		
	authority requirements		
NB:	The user's attention is drawn to the possible existence of regional or national		

regulations regarding disposal.

#### Section 14: Transport information

14.1. UN number

UN number: UN1950

14.2. UN proper shipping name

Shipping name: AEROSOLS

14.3. Transport hazard class(es)

Transport class: 2

14.4. Packing group

14.5. Environmental hazards

Environmentally hazardous: No

Marine pollutant: No

14.6. Special precautions for user

Tunnel code: D

## Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

## SURVEY LINE - ALL COLOURS

Chemical safety assessment       A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.         Section 16: Other information       This safety data sheet is prepared in accordance with Commission Regulation (EU) No 4532010. H25: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.         H25: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.	Other information:	This safety data sheet is prepared in accordance with Commission Regulation (EU) No	
Phrases used in s.2 and s.3:       EUH066: Repeated exposure may cause skin dryness or cracking.         H220: Extremely flammable gas.       H220: Extremely flammable garosol.         H221: Extremely flammable garosol.       H226: Flammable flquid and vapour.         H226: Flammable flquid and vapour.       H226: Flammable flquid and vapour.         H229: Pressurised container. May burst if heated       H304: May be fatal if swallowed and enters ainways.         H319: Causes serious eye initiation.       H336: May cause respiratory initiation.         H336: May cause respiratory initiation.       H336: May cause drowsiness or dizziness.         H411: Toxic to aquatic life with long lasting effects.       H11: Toxic to aquatic life with long lasting effects.         R10: Flammable.       R11: Highly flammable.         R11: Highly flammable.       R36: Initiating to eyes.         R37: Initiating to respiratory system.       R31/53: Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.         R35: Size Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.       R35: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.         R36: Flammable.       R66: Harmful: may cause lung damage if swallowed.         R67: Vapours may cause drowsines and dizziness.       R67: Vapours may cause drowsines and dizziness.         Legend to abbreviatore       MEC = predicted no effect level <th></th> <th>453/2010.</th>		453/2010.	
H220: Extremely flammable gas.H222: Extremely flammable aerosol.H225: Highly flammable liquid and vapour.H226: Flammable liquid and vapour.H229: Pressurised container: May burst if heatedH304: May be fatal if swallowed and enters airways.H319: Causes serious eye irritation.H335: May cause respiratory irritation.H336: May cause respiratory irritation.H336: May cause drowsiness or dizziness.H411: Toxic to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.R11: Highly flammable.R36: Irritating to respiratory system.R37: Irritating to respiratory system.R35: Si 3: Xoxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.R55: Harmful: may cause lung damage if swallowed.R66: Repeated exposure may cause skin dryness or cracking.R67: Vapours may cause drowsiness and dizziness.Legend to abbreviatoriDNEC = predicted no effect levelDNEL = derived no effect levelLogs = median lethal doseLC50 = median lethal concentrationEC50 = median lethal concentration		* indicates text in the SDS which has changed since the last revision.	
H222: Extremely flammable acrosol.H225: Highly flammable liquid and vapour.H226: Flammable liquid and vapour.H229: Pressurised container: May burst if heatedH304: May be fatal if swallowed and enters airways.H319: Causes serious eye irritation.H335: May cause respiratory irritation.H336: May cause drowsiness or dizziness.H411: Toxic to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.R11: Highly flammable.R36: Irritating to respiratory system.R37: Irritating to respiratory system.R37: Irritating to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R35: Harmful: nay cause flow gamage if swallowed.R66: Repeated exposure may cause kin dryness or cracking.R67: Vapours may cause drowsiness and dizziness.Legend to abbreviation:NEC = predicted no effect levelDNEC = median lethal doseLC50 = median lethal doseLC50 = median lethal concentration	Phrases used in s.2 and s.3:	EUH066: Repeated exposure may cause skin dryness or cracking.	
H225: Highly fammable liquid and vapour.H226: Flammable liquid and vapour.H229: Pressurised container: May burst if heatedH304: May be fatal if swallowed and enters ainways.H319: Causes serious eye irritation.H319: Causes serious eye irritation.H335: May cause respiratory irritation.H336: May cause drowsiness or dizziness.H411: Toxic to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.R111: Highly flammable.R111: Highly flammable.R111: Highly flammable.R111: Highly flammable.R112: Extremely flammable.R36: Irritating to eyes.R37: Irritating to respiratory system.R51/53: Toxic to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.R52/50: Harmful to aquate drowsiness and dizziness.Legend to abbreviationElse = neetiae exposure may cause skin dryness or cracking.R57: Vap		H220: Extremely flammable gas.	
H226: Flammable liquid and vapour.         H229: Pressurised container: May burst if heated         H304: May be fatal if swallowed and enters ainways.         H319: Causes serious eye irritation.         H335: May cause respiratory irritation.         H336: May cause drowsiness or dizziness.         H411: Toxic to aquatic life with long lasting effects.         H412: Harmful to aquatic life with long lasting effects.         H412: Harmful to aquatic life with long lasting effects.         R11: Highly flammable.         R11: Highly flammable.         R36: Irritating to respiratory system.         R316: Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.         R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.         R66: Repeated exposure may cause skin dryness or cracking.         R67: Vapours may cause drowsiness and dizziness.         Legend to abbreviations       PNEC = predicted no effect level         DNEL = derived no effect level       Lo50 = median lethal dose         Lo50 = median lethal concentration       EC50 = median effective concentration		H222: Extremely flammable aerosol.	
H229: Pressurised container: May burst if heatedH304: May be fatal if swallowed and enters ainways.H319: Causes serious eye irritation.H335: May cause respiratory irritation.H336: May cause drowsiness or dizziness.H411: Toxic to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.R10: Flammable.R11: Highly flammable.R36: Irritating to eyes.R37: Irritating to respiratory system.R51/53: Toxic to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in theaquatic environment.R65: Harmful to aquate organisms, may cause long-term adverse effects in theaquatic environment.R65: Harmful to aquate organisms, may cause long-term adverse effects in theaquatic environment.R65: Harmful to aquate organisms, may cause long-term adverse effects in theaquatic environment.R66: Repeated exposure may cause skin dryness or cracking.R67: Vapours may cause drowsiness and dizziness.PNEC = predicted no effect levelDNEL = derived no effect levelLD50 = median lethal doseLC50 = median lethal concentrationEC60 = median effective concentration		H225: Highly flammable liquid and vapour.	
H304: May be fatal if swallowed and enters ainways.H319: Causes serious eye irritation.H335: May cause respiratory irritation.H336: May cause drowsiness or dizziness.H411: Toxic to aquatic life with long lasting effects.H412: Harmful to aquatic life with long lasting effects.H11: Highly flammable.R11: Highly flammable.R36: Irritating to eyes.R37: Irritating to respiratory system.R51/53: Toxic to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquaticenvironment.R66: Repeated exposure may cause skin dryness or cracking.R67: Vapours may cause drowsiness and dizziness.PNEC = predicted no effect levelDNEL = derived no effect levelLD50 = median lethal doseLC50 = median lethal concentration		H226: Flammable liquid and vapour.
